Background Information on the Fund

The Fund is a non-diversified, actively-managed exchange-traded fund (“ETF”) that seeks to achieve its objective by investing a focused portfolio of approximately 25 to 35 common stocks of large capitalization companies (meaning companies with market capitalizations greater than \$10 billion at the time of purchase), including companies in both developed and emerging markets, that, in the opinion of Polen Capital Management, LLC, the sub-advisor to the Fund (the “Sub-Advisor”), have a sustainable competitive advantage. In addition, the Fund may from time to time purchase common stocks, including the common

stock of medium capitalization companies (meaning market capitalizations greater than \$2 billion but less than \$10 billion at the time of purchase), if, in the Sub-Advisor's opinion, the stock represents a particularly attractive investment opportunity. Under normal market conditions, the Fund invests primarily in non-U.S. equity securities. While under normal market conditions the Fund will invest in at least three different countries, the Sub-Advisor anticipates that the Fund will ordinarily invest in approximately six or more countries.

The specific allocation to U.S. and non-U.S. securities will vary from time to time based on the Sub-Advisor's assessment of domestic and international market conditions. An issuer is considered to be "located" in a particular country on the basis of its domicile, its principal place of business or headquarters, its primary stock exchange listing, and/or the primary source of its revenues (i.e., at least 50% of its revenues are generated in that country). There is no minimum portion of the Fund's assets required to be invested in any single country. Consistent with its investment criteria, the Fund may invest in equity securities of companies in emerging markets. An emerging market country is any country that is included in the MSCI Emerging Markets Index. Typically, emerging markets are in countries that are in the process of industrialization, with lower gross national products (GNP) than more developed countries.

The Fund invests in companies that the Sub-Advisor believes have a sustainable competitive advantage within an industry with high barriers to entry. Industries with high barriers to entry include those that are dependent on large amounts of capital investment, government approval of products or services, large-scale distribution systems, and/or patents and other intellectual property. In selecting investments for the Fund, the Sub-Advisor uses an intensive fundamental research process to identify companies that it believes have certain attractive characteristics, which typically reflect an underlying sustainable competitive advantage. Those characteristics include: (i) consistent and sustainable high return on capital, (ii) strong earnings growth and free cash flow generation, (iii) strong balance sheets and (iv) competent and shareholder-oriented management teams. The Sub-Advisor believes that consistent earnings growth is the primary driver of intrinsic value growth and long-term stock price appreciation. Accordingly, the Sub-Advisor focuses on identifying and investing in a concentrated portfolio of high-quality large capitalization growth companies that it believes has a competitive advantage and can deliver sustainable, above-average earnings growth. The Sub-Advisor integrates material environmental, social, and governance (ESG) factors into research analysis as part of a comprehensive evaluation of a company's long-term financial sustainability. The Sub-Advisor utilizes an ESG framework that assesses how a company serves its key stakeholders, including employees, customers, shareholders, suppliers and other business partners, and the environment. All business issues studied as part of its investment process, including those classified by the Sub-Advisor as material ESG issues, are considered as part of the Sub-Advisor's holistic assessment of the investment case for each company in the portfolio and its ability to meet the Sub-Advisor's return expectations. The Sub-Advisor believes that such companies not only have the potential to contribute greater returns to the Fund, but also may hold less risk of loss of capital. The Sub-Advisor may still make an investment even if it fails to satisfy the Sub-Advisor's ESG factors.

The Fund is non-diversified, which means that a significant portion of the Fund's assets may be invested in the securities of a single or small number of companies and/or in a more limited number of sectors than a diversified mutual fund. Although the Fund may not "concentrate" (invest 25% or more of its net assets) in any industry, the Fund may focus its investments from time to time in one or more sectors of the economy or stock market. The extent of the Fund's focus on certain sectors will change over time and may shift to other sectors, based on the Sub-Advisor's ongoing evaluation of the Fund's holdings and of potential investments that meet the Fund's investment mandate. The Sub-Advisor expects that the Fund may focus its investments from time to time in the healthcare and technology sectors.

The Fund will usually sell a security if, in the view of the Sub-Advisor, there is a potential threat to the company’s competitive advantage or a degradation in its prospects for strong, long-term earnings growth. The Sub-Advisor may also sell a security if the Sub-Advisor believes it to be overvalued or if a more attractive investment opportunity exists. Securities may also be sold if they underperform or to implement a revised allocation based on a modified view of market conditions or to invest in cash and cash equivalents. Although the Sub-Advisor may purchase and then sell a security in a shorter period of time, the Sub-Advisor typically invests in securities with the expectation of holding those investments on a long term basis.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
