Designated Members must attest that they are able to or have attempted to:

- Receive and process MWCB halt messages from the SIPs;
- Receive and process resume messages from the SIPs following an MWCB halt;
- Receive and process market data from the SIPs relevant to MWCB halts; and
- Send orders following a Level 1 or Level 2 MWCB halt in a manner consistent with usual trading behavior.

To the extent that a Member participating in an MWCB test is unable to receive and process any of the messages required for MWCB testing, its attestation should notify the Exchange which messages it was unable to process and, if known, why.
