Add Remove View

Exhibit Sent As Paper Document

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

**Exhibit 3 - Form, Report, or Questionnaire**

Add Remove View

Exhibit Sent As Paper Document

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

**Exhibit 4 - Marked Copies**

Add Remove View

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

**Exhibit 5 - Proposed Rule Text**

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

**Partial Amendment**

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

**1. Text of the Proposed Rule Change**

(a) Miami International Securities Exchange, LLC (“MIAX” or “Exchange”), pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> proposes to permit the minimum price variation for mini-option contracts that deliver 10 shares to be the same as permitted for standard options that deliver 100 shares on the same security.

A notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1, and the text of the proposed rule change is attached hereto as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

**2. Procedures of the Self-Regulatory Organization**

The proposed rule change was approved by the Chief Executive Officer of the Exchange pursuant to authority delegated by the MIAX Board of Directors on December 5, 2012. Exchange staff will advise the Board of Directors of any action taken pursuant to delegated authority. No other action by the Exchange is necessary for the filing of the proposed rule change.

Questions and comments on the proposed rule change may be directed to James C. Morgan, Associate Counsel and Assistant Vice President, at (609) 897-1484.

---

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

**3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

a. Purpose

MIAX recently amended its rules to allow for the listing of mini-options that deliver 10 physical shares on SPDR S&P 500 (“SPY”), Apple, Inc. (“AAPL”), SPDR Gold Trust (“GLD”), Google Inc. (“GOOG”) and Amazon.com Inc. (“AMZN”).<sup>3</sup> Mini-options trading is expected to commence in March 2013. Prior to the commencement of trading mini-options, the Exchange proposes to establish and permit the minimum price variation for mini-option contracts to be the same as permitted for standard options on the same security. In addition to giving market participants clarity as to the minimum pricing increments for mini-options, the filing would harmonize penny pricing between mini-options and standard options on the same security.

Of the five securities on which mini-options are permitted, four of them (SPY, AAPL, GLD and AMZN) participate in the Penny Pilot Program. Under the Penny Pilot Program:

- the minimum price variation for AAPL, GLD and AMZN options is \$0.01 for all quotations in series that are quoted at less than \$3 per contract and \$0.05 for all quotations in series that are quoted at \$3 per contract or greater; and
- the minimum price variation for SPY options is \$0.01 for all quotations in all series.

Another options exchange, as stated in a recent rule filing, has polled firms with customer bases of potential product users and they have indicated a preference that premium pricing for mini-options match what is currently permitted for standard options that deliver 100 physical

---

<sup>3</sup> See Securities Exchange Act Release No. 34-69136 (March 14, 2013) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to List and Trade Option Contracts Overlying 10 Shares of Certain Securities) (SR-MIAX-2013-06).

shares on the same securities.<sup>4</sup> Specifically, firms' systems are configured using the "root symbol" of an underlying security and cannot differentiate, for purposes of minimum variation pricing, between contracts on the same security. Mini-options will be loaded into firms' systems using the same "root symbol" that is used for standard options on the same security. As a result, it is believed that existing systems will not be able to assign different minimum pricing variations to different contracts on the same security. As a result, firms have indicated their preference that there be matched pricing between mini-options and standard options on the same security because their systems, which are programmed using "root symbols," would not be able to assign different minimum pricing variations to mini-options and standard options on the same security.

Because mini-options are a separate class from standard options on the same security, mini-options would have to qualify separately for entry into the Penny Pilot Program. This, however, is not possible by product launch (or possibly ever) for a number of reasons. First, there is a six calendar month trading volume criteria for entry into the Penny Pilot Program, which mini-options cannot satisfy prior to launch. Second, even if mini-options met the trading volume criteria, replacement classes are only added to the Penny Pilot Program on the second trading day following January 1 and July 1 in a given year. Finally, there is a price test for entry into the Penny Pilot Program which excludes "high premium" classes, which are defined as classes priced at \$200 per share or higher at the time of selection. As of the date of this filing, three of the five securities (AAPL, AMZN and GOOG) eligible for mini-options would be excluded as "high premium" classes, even though two of those securities (AAPL and AMZN)

---

<sup>4</sup> See Securities Exchange Act Release No. 34-68873 (February 8, 2013), 78 FR 10671 (February 14, 2013) (Notice of Filing Proposed Rule Change To Permit the Minimum Price Variation for Mini- Options To Be the Same as Permitted for Standard Options on the Same Security) (SR-CBOE-2013-016).

are in the Penny Pilot Program for standard options. The Exchange notes that GOOG is not in the Penny Pilot Program.<sup>5</sup>

The Exchange, therefore, is proposing to establish a pricing regime for mini-options separate from the Penny Pilot Program that permits the minimum price variation for mini-option contracts to be the same as permitted for standard options on the same security, which would encompass penny pricing for mini-option contracts on securities that participate in the Penny Pilot Program.<sup>6</sup>

As to the Penny Pilot Program, the Exchange believes that there are several good reasons to allow penny pricing for mini-options on securities that currently participate in the Penny Pilot Program, without requiring mini-options to separately qualify for the Penny Pilot Program. First, the Penny Pilot Program applies to the most actively-traded, multiply-listed option classes. Likewise, the five securities which may underlie mini-options were chosen because of the significant liquidity in standard options on the same security. The Exchange also believes that the marketplace and investors will be expecting the minimum price variation for contracts on the same security to be the same. Second, one of the primary goals of the Penny Pilot Program is to narrow the bid-ask spreads of exchange-traded options to reduce the cost of entering and exiting positions. This same goal can similarly be accomplished by permitting penny pricing for mini-option contracts on securities that already participate in the Penny Pilot Program. Finally, the Exchange believes that penny pricing for mini-options is desirable for a product that is geared

---

<sup>5</sup> The minimum price variation for standard options on GOOG is \$0.05 for all quotations in series that are quoted at less than \$3 per contract and \$0.10 for all quotations in series that are quoted at \$3 per contract or greater. See MIAX Rule 510(a).

<sup>6</sup> As noted in the Exchange's original mini-option filing, mini-options are limited to five securities and any expansion of the program would require that a subsequent proposed rule change be submitted to the Commission. The current proposal is limited to the five securities originally approved to underlie mini-options. The Exchange anticipates that a similar minimum pricing variation regime would be included in any rule change to expand the mini-option program.

toward retail investors. Mini-options are on high priced securities and are meant to be an investment tool with more affordable and realistic prices for the average retail investor. Penny pricing for mini-options on securities that are currently in the Penny Pilot Program would benefit the anticipated users of mini-options by providing more price points. The Exchange notes that it is not requesting penny pricing for all of the five securities eligible for mini-options trading; but rather is seeking to permit matched penny pricing for mini-options on those securities for which standard options already trade in pennies.

In addition to an expressed market preference for matched minimum increment pricing (including penny pricing) between mini-options and standard options on the same securities, the Exchange believes that the rules of another options exchange, Chicago Board of Options Exchange (“CBOE”), has established precedent for the current proposal. Specifically, CBOE Rule 6.42.03 provides, among other things, that matched penny pricing between SPY and Mini-S&P 500 Index (“XSP”) options is permitted. As to SPY and XSP options, the rationale for matched pricing was that the underlying SPY ETF is designed to track the performance of the S&P 500 Index and XSP options are options based on the S&P 500 Index.<sup>7</sup> In support of this earlier filing, CBOE asserted that having the same minimum price variation for SPY and XSP options was necessary for consistency and for competitive reasons.

To effect the current proposed rule changes, MIAX proposes to amend MIAX Rules 510 and 404. As to MIAX Rule 510 (Minimum Price Variations and Minimum Trading Increments), MIAX proposes adding new Interpretation and Policy .02 that would be an internal cross reference to new proposed Interpretation and Policy .08(d) to MIAX Rule 404 as the provision

---

<sup>7</sup> See Securities Exchange Act Release No. 56565 (September 27, 2007), 72 FR 56403 (October 3, 2007) (Order Granting Approval to a Proposed Rule Change Regarding the Extension and Expansion of the Penny Pilot Program) (SR-CBOE-2007-98).

that sets forth the minimum price variation for bids and offers for mini-options. Proposed Interpretation and Policy .8(d) to MIAX Rule 404 would provide as follows:

The minimum price variation for bids and offers for mini-options shall be the same as permitted for standard options on the same security. For example, if a security participates in the Penny Pilot Program, mini options on the same underlying security may be quoted in the same minimum increments, e.g., \$0.01 for all quotations in series that are quoted at less than \$3 per contract and \$0.05 for all quotations in series that are quoted at \$3 per contract or greater, \$0.01 for all SPY option series, and mini-options do not separately need to qualify for the Penny Pilot Program.

With regard to the impact of this proposal on system capacity, the Exchange has analyzed its capacity and represents that it and the Options Price Reporting Authority have the necessary systems capacity to handle the potential additional traffic associated with this proposal. The Exchange does not believe that this increased traffic will become unmanageable since mini-options are limited to a fixed number of underlying securities.

b. Statutory Basis

MIAX believes that its proposed rule change is consistent with Section 6(b) of the Act<sup>8</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act<sup>9</sup> in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest, and it is not designed to permit unfair discrimination among customers, brokers, or dealers.

---

<sup>8</sup> 15 U.S.C. 78f(b).

<sup>9</sup> 15 U.S.C. 78f(b)(5).

Specifically, the Exchange believes that investors and other market participants would benefit from the current rule proposal because it would clarify and establish the minimum price variation for mini-options prior to the commencement of trading. The Exchange believes that the marketplace and investors will be expecting the minimum price variation for contracts on the same security to be the same. As a result, the Exchange believes that this change would lessen investor and marketplace confusion because mini-options and standard options on the same security would have the same minimum price variation.

While price protection between mini-options and standard options on the same security is not required, the Exchange believes that consistency between mini-options and standard options as to the minimum price variation is desirable and is designed to promote just and equitable principles of trade. Matching the minimum price variation between mini-options and standard options on the same security would help to eliminate any unnecessary arbitrage opportunities that could result from having contracts on the same underlying security traded in different minimum price increments. Similarly, matched minimum pricing would hopefully generate enhanced competition among liquidity providers. The Exchange believes that matched pricing for mini-options and standard options on the same security would attract additional liquidity providers who would make markets in mini-options and standard options on the same security. In addition to the possibility of more liquidity providers, the Exchange believes that the ability to quote mini-options and standard options on the same security in the same minimum increments would hopefully result in more efficient pricing via arbitrage and possible price improvement in both contracts on the same security. The Exchange also believes that allowing penny pricing for mini-options on securities that currently participate in the Penny Pilot Program (without mini-options having to qualify separately for entry into the Penny Pilot Program) will benefit the

marketplace and investors because penny pricing in mini-options may also accomplish one of the primary goals of the Penny Pilot Program, which is to narrow the bid-ask spreads of exchange-traded options to reduce the cost of entering and exiting positions. Finally, the proposed rule would be beneficial from a logistical perspective since firms' existing systems are configured using the "root symbol" of an underlying security and would not be able to assign different minimum pricing variations to mini-options and standard options on the same security.

**4. Self-Regulatory Organization's Statement on Burden on Competition**

MIAX does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Specifically, since mini-options are permitted on multiply-listed classes, other exchanges that have received approval to trade mini-options will have the opportunity to similarly establish the minimum price variation for mini-options prior to the anticipated launch in March 2013. MIAX also believes that the proposed rule change will enhance competition by allowing products on the same security to be priced in the same minimum price increments.

**5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others**

No written comments were either solicited or received.

**6. Extension of Time Period for Commission Action**

Not applicable.

**7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)**

Pursuant to Section 19(b)(3)(A) of the Act<sup>10</sup> and Rule 19b-4(f)(6)<sup>11</sup> thereunder, the Exchange has designated this proposal as one that effects a change that: (i) does not significantly

---

<sup>10</sup> 15 U.S.C. 78s(b)(3)(A).

affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement. Furthermore, a proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act<sup>12</sup> normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)<sup>13</sup> permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange notes that the proposed rule change is substantially similar in all material respects to existing rules of ISE and CBOE.<sup>14</sup> The Exchange also provided the Commission with written notice of its intent to file the proposal, along with a brief description and text of the proposal, prior to the date of the filing of the proposed rule change as required by Rule 19b-4(f)(6).

The Exchange requests that the Commission waive the pre-filing period and the 30-day operative delay period. Waiver of the pre-filing period and operative delay is consistent with the protection of investors and the public interest because it will ensure fair competition among

**EXHIBIT 1**SECURITIES AND EXCHANGE COMMISSION  
(Release No. 34- ; File No. SR-MIAX-2013-10)

March\_\_, 2013

## Self-Regulatory Organizations: Notice of Filing and Immediate Effectiveness of a Proposed Rule Change by Miami International Securities Exchange LLC to Permit the Minimum Price Variation for Mini-Option Contracts to be the Same as Permitted for Standard Options on the Same Underlying Security

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on March 15, 2013, Miami International Securities Exchange LLC (“MIAX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

**I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change**

The Exchange is filing a proposal to permit the minimum price variation for mini-option contracts that deliver 10 shares to be the same as permitted for standard options that deliver 100 shares on the same security.

The text of the proposed rule change is provided in Exhibit 5. The text of the proposed rule change is also available on the Exchange’s website at

[http://www.miaxoptions.com/filter/wotitle/rule\\_filing](http://www.miaxoptions.com/filter/wotitle/rule_filing), at MIAX’s principal office, and at the Commission’s Public Reference Room.

---

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

MIAX recently amended its rules to allow for the listing of mini-options that deliver 10 physical shares on SPDR S&P 500 (“SPY”), Apple, Inc. (“AAPL”), SPDR Gold Trust (“GLD”), Google Inc. (“GOOG”) and Amazon.com Inc. (“AMZN”).<sup>3</sup> Mini-options trading is expected to commence in March 2013. Prior to the commencement of trading mini-options, the Exchange proposes to establish and permit the minimum price variation for mini-option contracts to be the same as permitted for standard options on the same security. In addition to giving market participants clarity as to the minimum pricing increments for mini-options, the filing would harmonize penny pricing between mini-options and standard options on the same security.

Of the five securities on which mini-options are permitted, four of them (SPY, AAPL, GLD and AMZN) participate in the Penny Pilot Program. Under the Penny Pilot Program:

---

<sup>3</sup> See Securities Exchange Act Release No. 34-69136 (March 14, 2013) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to List and Trade Option Contracts Overlying 10 Shares of Certain Securities) (SR-MIAX-2013-06).

- the minimum price variation for AAPL, GLD and AMZN options is \$0.01 for all quotations in series that are quoted at less than \$3 per contract and \$0.05 for all quotations in series that are quoted at \$3 per contract or greater; and
- the minimum price variation for SPY options is \$0.01 for all quotations in all series.

Another options exchange, as stated in a recent rule filing, has polled firms with customer bases of potential product users and they have indicated a preference that premium pricing for mini-options match what is currently permitted for standard options that deliver 100 physical shares on the same securities.<sup>4</sup> Specifically, firms' systems are configured using the "root symbol" of an underlying security and cannot differentiate, for purposes of minimum variation pricing, between contracts on the same security. Mini-options will be loaded into firms' systems using the same "root symbol" that is used for standard options on the same security. As a result, it is believed that existing systems will not be able to assign different minimum pricing variations to different contracts on the same security. As a result, firms have indicated their preference that there be matched pricing between mini-options and standard options on the same security because their systems, which are programmed using "root symbols," would not be able to assign different minimum pricing variations to mini-options and standard options on the same security.

Because mini-options are a separate class from standard options on the same security, mini-options would have to qualify separately for entry into the Penny Pilot Program. This, however, is not possible by product launch (or possibly ever) for a number of reasons. First, there is a six calendar month trading volume criteria for entry into the Penny Pilot Program, which mini-options cannot satisfy prior to launch. Second, even if mini-options met the trading

---

<sup>4</sup> See Securities Exchange Act Release No. 34-68873 (February 8, 2013), 78 FR 10671 (February 14, 2013) (Notice of Filing Proposed Rule Change To Permit the Minimum Price Variation for Mini- Options To Be the Same as Permitted for Standard Options on the Same Security) (SR-CBOE-2013-016).

volume criteria, replacement classes are only added to the Penny Pilot Program on the second trading day following January 1 and July 1 in a given year. Finally, there is a price test for entry into the Penny Pilot Program which excludes “high premium” classes, which are defined as classes priced at \$200 per share or higher at the time of selection. As of the date of this filing, three of the five securities (AAPL, AMZN and GOOG) eligible for mini-options would be excluded as “high premium” classes, even though two of those securities (AAPL and AMZN) are in the Penny Pilot Program for standard options. The Exchange notes that GOOG is not in the Penny Pilot Program.<sup>5</sup>

The Exchange, therefore, is proposing to establish a pricing regime for mini-options separate from the Penny Pilot Program that permits the minimum price variation for mini-option contracts to be the same as permitted for standard options on the same security, which would encompass penny pricing for mini-option contracts on securities that participate in the Penny Pilot Program.<sup>6</sup>

As to the Penny Pilot Program, the Exchange believes that there are several good reasons to allow penny pricing for mini-options on securities that currently participate in the Penny Pilot Program, without requiring mini-options to separately qualify for the Penny Pilot Program. First, the Penny Pilot Program applies to the most actively-traded, multiply-listed option classes. Likewise, the five securities which may underlie mini-options were chosen because of the significant liquidity in standard options on the same security. The Exchange also believes that

---

<sup>5</sup> The minimum price variation for standard options on GOOG is \$0.05 for all quotations in series that are quoted at less than \$3 per contract and \$0.10 for all quotations in series that are quoted at \$3 per contract or greater. See MIAX Rule 510(a).

<sup>6</sup> As noted in the Exchange’s original mini-option filing, mini-options are limited to five securities and any expansion of the program would require that a subsequent proposed rule change be submitted to the Commission. The current proposal is limited to the five securities originally approved to underlie mini-options. The Exchange anticipates that a similar minimum pricing variation regime would be included in any rule change to expand the mini-option program.

the marketplace and investors will be expecting the minimum price variation for contracts on the same security to be the same. Second, one of the primary goals of the Penny Pilot Program is to narrow the bid-ask spreads of exchange-traded options to reduce the cost of entering and exiting positions. This same goal can similarly be accomplished by permitting penny pricing for mini-option contracts on securities that already participate in the Penny Pilot Program. Finally, the Exchange believes that penny pricing for mini-options is desirable for a product that is geared toward retail investors. Mini-options are on high priced securities and are meant to be an investment tool with more affordable and realistic prices for the average retail investor. Penny pricing for mini-options on securities that are currently in the Penny Pilot Program would benefit the anticipated users of mini-options by providing more price points. The Exchange notes that it is not requesting penny pricing for all of the five securities eligible for mini-options trading; but rather is seeking to permit matched penny pricing for mini-options on those securities for which standard options already trade in pennies.

In addition to an expressed market preference for matched minimum increment pricing (including penny pricing) between mini-options and standard options on the same securities, the Exchange believes that the rules of another options exchange, Chicago Board of Options Exchange (“CBOE”), has established precedent for the current proposal. Specifically, CBOE Rule 6.42.03 provides, among other things, that matched penny pricing between SPY and Mini-S&P 500 Index (“XSP”) options is permitted. As to SPY and XSP options, the rationale for matched pricing was that the underlying SPY ETF is designed to track the performance of the S&P 500 Index and XSP options are options based on the S&P 500 Index.<sup>7</sup> In support of this

<sup>7</sup> See Securities Exchange Act Release No. 56565 (September 27, 2007), 72 FR 56403 (October 3, 2007) (Order Granting Approval to a Proposed Rule Change Regarding the Extension and Expansion of the Penny Pilot Program) (SR-CBOE-2007-98).

earlier filing, CBOE asserted that having the same minimum price variation for SPY and XSP options was necessary for consistency and for competitive reasons.

To effect the current proposed rule changes, MIAX proposes to amend MIAX Rules 510 and 404. As to MIAX Rule 510 (Minimum Price Variations and Minimum Trading Increments), MIAX proposes adding new Interpretation and Policy .02 that would be an internal cross reference to new proposed Interpretation and Policy .08(d) to MIAX Rule 404 as the provision that sets forth the minimum price variation for bids and offers for mini-options. Proposed Interpretation and Policy .8(d) to MIAX Rule 404 would provide as follows:

The minimum price variation for bids and offers for mini-options shall be the same as permitted for standard options on the same security. For example, if a security participates in the Penny Pilot Program, mini options on the same underlying security may be quoted in the same minimum increments, e.g., \$0.01 for all quotations in series that are quoted at less than \$3 per contract and \$0.05 for all quotations in series that are quoted at \$3 per contract or greater, \$0.01 for all SPY option series, and mini-options do not separately need to qualify for the Penny Pilot Program.

With regard to the impact of this proposal on system capacity, the Exchange has analyzed its capacity and represents that it and the Options Price Reporting Authority have the necessary systems capacity to handle the potential additional traffic associated with this proposal. The Exchange does not believe that this increased traffic will become unmanageable since mini-options are limited to a fixed number of underlying securities.

## 2. Statutory Basis

MIAX believes that its proposed rule change is consistent with Section 6(b) of the Act<sup>8</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act<sup>9</sup> in particular, in that it is

---

<sup>8</sup> 15 U.S.C. 78f(b).

<sup>9</sup> 15 U.S.C. 78f(b)(5).

designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest, and it is not designed to permit unfair discrimination among customers, brokers, or dealers.

Specifically, the Exchange believes that investors and other market participants would benefit from the current rule proposal because it would clarify and establish the minimum price variation for mini-options prior to the commencement of trading. The Exchange believes that the marketplace and investors will be expecting the minimum price variation for contracts on the same security to be the same. As a result, the Exchange believes that this change would lessen investor and marketplace confusion because mini-options and standard options on the same security would have the same minimum price variation.

While price protection between mini-options and standard options on the same security is not required, the Exchange believes that consistency between mini-options and standard options as to the minimum price variation is desirable and is designed to promote just and equitable principles of trade. Matching the minimum price variation between mini-options and standard options on the same security would help to eliminate any unnecessary arbitrage opportunities that could result from having contracts on the same underlying security traded in different minimum price increments. Similarly, matched minimum pricing would hopefully generate enhanced competition among liquidity providers. The Exchange believes that matched pricing for mini-options and standard options on the same security would attract additional liquidity providers who would make markets in mini-options and standard options on the same security. In addition to the possibility of more liquidity providers, the Exchange believes that the ability to

quote mini-options and standard options on the same security in the same minimum increments would hopefully result in more efficient pricing via arbitrage and possible price improvement in both contracts on the same security. The Exchange also believes that allowing penny pricing for mini-options on securities that currently participate in the Penny Pilot Program (without mini-options having to qualify separately for entry into the Penny Pilot Program) will benefit the marketplace and investors because penny pricing in mini-options may also accomplish one of the primary goals of the Penny Pilot Program, which is to narrow the bid-ask spreads of exchange-traded options to reduce the cost of entering and exiting positions. Finally, the proposed rule would be beneficial from a logistical perspective since firms' existing systems are configured using the "root symbol" of an underlying security and would not be able to assign different minimum pricing variations to mini-options and standard options on the same security.

**B. Self-Regulatory Organization's Statement on Burden on Competition**

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. . Specifically, since mini-options are permitted on multiply-listed classes, other exchanges that have received approval to trade mini-options will have the opportunity to similarly establish the minimum price variation for mini-options prior to the anticipated launch in March 2013. MIAX also believes that the proposed rule change will enhance competition by allowing products on the same security to be priced in the same minimum price increments.

**C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others**

Written comments were neither solicited or received.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to 19(b)(3)(A) of the Act<sup>10</sup> and Rule 19b-4(f)(6)<sup>11</sup> thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

#### IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.

Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>);

or

- Send an e-mail [to rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-

MIAX-2013-10 on the subject line.

---

<sup>10</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>11</sup> 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

Paper comments:

- Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-MIAX-2013-10. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-MIAX-2013-10 and should be submitted on or before [insert date 21 days from publication in the Federal Register]. For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>12</sup>

Kevin M. O'Neill  
Deputy Secretary

## EXHIBIT 5

## MIAMI INTERNATIONAL SECURITIES EXCHANGE, LLC

## Proposed Rule Change

---

It is proposed that the following provisions of the Miami International Securities Exchange Rules be amended as set forth below. [Bracketed] text indicates material to be deleted and underlined text indicates material to be added.

**Rule 404. Series of Option Contracts Open for Trading**

(a) - (e) No change.

...Interpretations and Policies:

.01 - .07 No change.

**.08 Mini Option Contracts**

(a) After an option class on a stock, exchange-traded fund (ETF) share, Trust Issued Receipt (TIR), and other Equity Index-Linked Security with a 100 share deliverable has been approved for listing and trading on the Exchange, series of option contracts with a 10 share deliverable on that stock, ETF share, TIR, and other Equity Index-Linked Security may be listed for all expirations opened for trading on the Exchange. Mini-option contracts may currently be listed on SPDR S&P 500 (SPY), Apple, Inc. (AAPL), SPDR Gold Trust (GLD), Google, Inc. (GOOG) and Amazon.com Inc. (AMZN).

(b) Strike prices for mini-options shall be set at the same level as for standard options. For example, a call series strike price to deliver 10 shares of stock at \$125 per share has a total deliverable value of \$1250, and the strike price will be set at 125.

(c) No additional series of mini-options may be added if the underlying security is trading at \$90 or less. The underlying security must trade above \$90 for five consecutive days prior to listing mini-option contracts in an additional expiration month.

(d) The minimum price variation for bids and offers for mini-options shall be the same as permitted for standard options on the same security. For example, if a security participates in the Penny Pilot Program, mini-options on the same underlying security may be quoted in the same minimum increments, e.g., \$0.01 for all quotations in series that are quoted at less than \$3 per contract and \$0.05 for all quotations in series that are quoted at \$3 per contract or greater, \$0.01 for all SPY option series, and mini-options do not separately need to qualify for the Penny Pilot Program.

\* \* \* \* \*

**Rule 510. Minimum Price Variations and Minimum Trading Increments**

(a) - (b) No change.

...Interpretations and Policies:

.01 Notwithstanding any other provision of this Rule 510, the Exchange will operate a pilot program, scheduled to expire on June 30, 2013, to permit options classes to be quoted and traded in increments as low as \$.01. The Exchange will specify which options trade in such pilot, and in what increments, in Regulatory Circulars filed with the Commission pursuant to Rule 19b-4 under the Exchange Act and distributed to Members. The Exchange may replace any pilot classes that have been delisted with the next most actively traded multiply listed options classes that are not yet included in the pilot program, based on trading activity in the previous six months. The replacement classes may be added to the penny pilot on the second trading day following January 1, 2013.

.02 The minimum price variation for bids and offers for mini-options shall be determined in accordance with Interpretation and Policy .08(d) to Rule 404.
