PARTIAL AMENDMENT

Miami International Securities Exchange LLC (“MIAX” or “Exchange”) is filing this Partial Amendment No. 1 to SR-MIAX-2014-09 to make the following changes to clarify that the analysis of Section 11(a) of the Exchange Act applies to both the MIAX Price Improvement Mechanism (“PRIME”) and PRIME Solicitation Mechanism. The Exchange notes that the text in footnote 91 of both the Purpose Section and Exhibit 1 has been omitted below, since there was no change to the language in the footnotes.

1. P. 42 of the Purpose Section in the 19b-4 and p. 89 of the Purpose Section in Exhibit 1, the Exchange proposes to remove the following language:

“As set forth below, the Exchange believes that the proposed rules for the PRIME are consistent with the requirements in Section 11(a) and the rules thereunder.”

And replace the language with the following:

“As set forth below, the Exchange believes that the proposed rules for the PRIME and PRIME Solicitation Mechanism are consistent with the requirements in Section 11(a) and the rules thereunder.”

2. P. 43 of the Purpose Section in the 19b-4 and p. 89 of the Purpose Section in Exhibit 1, the Exchange proposes to remove the following language:

“With respect to Market Makers on the Exchange, the Exchange believes that orders sent by them for covered accounts to the proposed PRIME would qualify for this exception from Section 11(a).”

And replace the language with the following:

“With respect to Market Makers on the Exchange, the Exchange believes that orders sent by them for covered accounts to the proposed PRIME and PRIME Solicitation Mechanism would qualify for this exception from Section 11(a).”

3. P. 43-44 of the Purpose Section in the 19b-4 and p. 90 of the Purpose Section in Exhibit 1, the Exchange proposes to remove the following language:

“The Exchange believes that orders sent by Members for covered accounts to the proposed PRIME would qualify for this “effect versus execute” exception from Section 11(a), as described below. In this regard, the first condition of Rule 11a2-2(T) is that orders for covered accounts be transmitted from off the exchange floor. The MIAX trading system and the proposed PRIME receives all orders electronically through remote terminals or computer-to-computer interfaces. The Exchange represents that orders for covered accounts from Members will be transmitted from a remote location directly to the proposed PRIME mechanisms by electronic means.”

And replace the language with the following:

“The Exchange believes that orders sent by Members for covered accounts to the proposed PRIME and PRIME Solicitation Mechanism would qualify for this “effect versus execute” exception from Section 11(a), as described below. In this regard, the first condition of Rule 11a2-2(T) is that orders for covered accounts be transmitted from off the exchange floor. 4. P. 44 of the Purpose Section in the 19b-4 and p. 90 of the Purpose Section in

Exhibit 1, the Exchange proposes to remove the following language:

“The Exchange represents that, upon submission to the PRIME, an order will be executed automatically pursuant to the rules set forth for the mechanism. In particular, execution of an order sent to the mechanism depends not on the Member entering the order, but rather on what other orders are present and the priority of those orders.”

And replace the language with the following:

“The Exchange represents that, upon submission to the PRIME and PRIME Solicitation Mechanism, an order will be executed automatically pursuant to the rules set forth for the mechanisms. In particular, execution of an order sent to the PRIME or PRIME Solicitation Mechanism depends not on the Member entering the order, but rather on what other orders are present and the priority of those orders”

5. P. 44-45 of the Purpose Section in the 19b-4 and p. 91 of the Purpose Section in

Exhibit 1, the Exchange proposes to remove the following language:

“The Commission has stated that the requirement is satisfied when automated exchange facilities, such as the PRIME, are used, as long as the design of these systems ensures that members do not possess any special or unique trading advantages in handling their orders after transmitting them to the exchange.⁹¹ The Exchange represents that the

PRIME is designed so that no Member has any special or unique trading advantage in the handling of its orders after transmitting its orders to the mechanism.”

And replace the language with the following:
