Questions and comments on the proposed rule change may be directed to Brian O’Neill, Vice President and Senior Counsel, at 609-897-1434.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**a. Purpose**

The Exchange proposes to amend the Priority Customer Rebate Program (the “Program”)³ to expand the number of option classes that qualify for a per contract credit for transactions in MIAX Select Symbols⁴.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

Under the Program, the Exchange credits each Member the per contract amount set forth in the Fee Schedule resulting from each Priority Customer⁵ order transmitted by that Member which is executed on the Exchange in all multiply-listed option classes (excluding mini-options, Priority Customer-to-Priority Customer Orders, PRIME AOC Responses, PRIME Contra-side Orders, PRIME Orders for which both the Agency and Contra-side Order are Priority Customers, and executions related to contracts that are routed to one or more exchanges in connection with the Options Order Protection and Locked/Crossed Market Plan referenced in MIAX Rule 1400), provided the Member meets certain volume thresholds in a month. For each Priority Customer order submitted into the PRIME Auction as a PRIME Agency Order, MIAX shall credit each member at the separate per contract rate for PRIME Agency Orders; however, no rebates will be paid if the PRIME Agency Order executes against a Contra-side Order which is also a Priority Customer. The volume thresholds are calculated based on the customer average daily volume over the course of the month. Volume is recorded for and credits are delivered to the Member Firm that submits the order to the Exchange. The Exchange aggregates the contracts resulting

⁴ The term "MIAX Select Symbols" currently means options overlying AA, AAL, AAPL, AIG, AMZN, AZN, BP, C, CBS, CLF, CMCSA, EBAY, EEM, EFA, EWJ, FB, FCX, FXI, GE, GILD, GLD, GM, GOOG, GOOGL, HTZ, INTC, IWM, IYR, JCP, JPM, KO, MO, MRK, NFLX, NOK, NQ, PBR, PCLN, PFE, PG, QCOM, QQQ, S, SIRI, SPY, SUNE, T, TSLA, USO, VALE, WAG, WFC, WMB, WY, XHB, XLE, XLF, XLP, XLU and XOM.

⁵ The term "Priority Customer" means a person or entity that (i) is not a broker or dealer in securities, and (ii) does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial accounts(s). See MIAX Rule 100.

from Priority Customer orders transmitted and executed electronically on the Exchange from affiliated Members for purposes of the thresholds above, provided there is at least 75% common ownership between the firms as reflected on each firm's Form BD, Schedule A. In the event of a MIAX System outage or other interruption of electronic trading on MIAX, the Exchange adjusts the national customer volume in multiply-listed options for the duration of the outage. A Member may request to receive its credit under the Program as a separate direct payment.

The Exchange proposes modifying the Program to expand the number of option classes that qualify for a per contract credit for transactions in MIAX Select Symbols. MIAX Select Symbols currently include options overlying AA, AAL, AAPL, AIG, AMZN, AZN, BP, C, CBS, CLF, CMCSA, EBAY, EEM, EFA, EWJ, FB, FCX, FXI, GE, GILD, GLD, GM, GOOG, GOOGL, HTZ, INTC, IWM, IYR, JCP, JPM, KO, MO, MRK, NFLX, NOK, NQ, PBR, PCLN, PFE, PG, QCOM, QQQ, S, SIRI, SPY, SUNE, T, TSLA, USO, VALE, WAG, WFC, WMB, WY, XHB, XLE, XLF, XLP, XLU and XOM. The Exchange proposes to modify the MIAX Select Symbols to add BABA. Thus, the Exchange will credit each Member the per contract rate set forth in the table located in the Fee Schedule resulting from each Priority Customer order transmitted by that Member executed on Exchange in AA, AAL, AAPL, AIG, AMZN, AZN, BABA, BP, C, CBS, CLF, CMCSA, EBAY, EEM, EFA, EWJ, FB, FCX, FXI, GE, GILD, GLD, GM, GOOG, GOOGL, HTZ, INTC, IWM, IYR, JCP, JPM, KO, MO, MRK, NFLX, NOK, NQ, PBR, PCLN, PFE, PG, QCOM, QQQ, S, SIRI, SPY, SUNE, T, TSLA, USO, VALE, WAG, WFC, WMB, WY, XHB, XLE, XLF, XLP, XLU and XOM. The per contract credit would be in lieu of the applicable credit that would otherwise apply to the transaction based on the volume thresholds. The Exchange notes that all the other aspects of the Program would continue to

apply to the credits (e.g., the aggregation of volume of affiliates, exclusion of contracts that are routed to away exchanges, exclusion of mini-options ... etc.).⁶

For example, if Member Firm ABC, Inc. ("ABC") has enough Priority Customer contracts to achieve 0.5% of the national customer volume in multiply-listed option contracts during the month of October, ABC will receive a credit of \$0.15 for each Priority Customer contract executed in the month of October. However, any qualifying Priority Customer transactions during such month that occurred in AA, AAL, AAPL, AIG, AMZN, AZN, BABA, BP, C, CBS, CLF, CMCSA, EBAY, EEM, EFA, EWJ, FB, FCX, FXI, GE, GILD, GLD, GM, GOOG, GOOGL, HTZ, INTC, IWM, IYR, JCP, JPM, KO, MO, MRK, NFLX, NOK, NQ, PBR, PCLN, PFE, PG, QCOM, QQQ, S, SIRI, SPY, SUNE, T, TSLA, USO, VALE, WAG, WFC, WMB, WY, XHB, XLE, XLF, XLP, XLU and XOM would be credited at the \$0.20 per contact rate versus the standard credit of \$0.15. Similarly, if Member Firm XYZ, Inc. ("XYZ") has enough Priority Customer contracts to achieve 2.5% of the national customer volume in multiply-listed option contracts during the month of October, XYZ will receive a credit of \$0.18 for each Priority Customer contract executed in the month of October. However, any qualifying Priority Customer transactions during such month that occurred in AA, AAL, AAPL, AIG, AMZN, AZN, BABA, BP, C, CBS, CLF, CMCSA, EBAY, EEM, EFA, EWJ, FB, FCX, FXI, GE, GILD, GLD, GM, GOOG, GOOGL, HTZ, INTC, IWM, IYR, JCP, JPM, KO, MO, MRK, NFLX, NOK, NQ, PBR, PCLN, PFE, PG, QCOM, QQQ, S, SIRI, SPY, SUNE, T, TSLA, USO,

VALE, WAG, WFC, WMB, WY, XHB, XLE, XLF, XLP, XLU and XOM would be credited at the \$0.20 per contact rate versus the standard credit of \$0.18.

The purpose of the amendment to the Program is to further encourage Members to direct greater Priority Customer trade volume to the Exchange in these high volume symbols. Increased Priority Customer volume will provide for greater liquidity, which benefits all market participants on the Exchange. The practice of incentivizing increased retail customer order flow in order to attract professional liquidity providers (Market-Makers) is, and has been, commonly practiced in the options markets. As such, marketing fee programs,⁷ and customer posting incentive programs,⁸ are based on attracting public customer order flow. The practice of providing additional incentives to increase order flow in high volume symbols is, and has been, commonly practiced in the options markets.⁹ The Program similarly intends to attract Priority Customer order flow, which will increase liquidity, thereby providing greater trading opportunities and tighter spreads for other market participants and causing a corresponding increase in order flow from such other market participants in these select symbols. Increasing the number of orders sent to the Exchange will in turn provide tighter and more liquid markets, and therefore attract more business overall.

⁷ See MIAX Fee Schedule, Section 1(b).

⁸ See NYSE Arca, Inc. Fees Schedule, page 4 (section titled "Customer Monthly Posting Credit Tiers and Qualifications for Executions in Penny Pilot Issues").

⁹ See International Securities Exchange, LLC, Schedule of Fees, p. 6 (providing reduced fee rates for order flow in Select Symbols); NASDAQ OMX PHLX, Pricing Schedule, Section I (providing a rebate for adding liquidity in SPY); NYSE Arca, Inc. Fees Schedule, page 4 (section titled "Customer Monthly Posting Credit Tiers and Qualifications for Executions in Penny Pilot Issues").

The credits paid out as part of the program will be drawn from the general revenues of the Exchange.¹⁰ The Exchange calculates volume thresholds on a monthly basis.

b. Statutory Basis

The Exchange believes that its proposal to amend its fee schedule is consistent with Section 6(b) of the Act¹¹ in general, and furthers the objectives of Section 6(b)(4) of the Act¹² in particular, in that it is an equitable allocation of reasonable fees and other charges among Exchange members.

The Exchange believes that the proposal to modify the Program to expand the number of option classes that qualify for the credit for transactions in MIAX Select Symbols is fair, equitable and not unreasonably discriminatory. The credit for transactions in the select symbols is reasonably designed because it will incent providers of Priority Customer order flow to send that Priority Customer order flow to the Exchange in order to receive a credit in a manner that enables the Exchange to improve its overall competitiveness and strengthen its market quality for all market participants. The Program which provides increased incentives in high volume select symbols is also reasonably designed to increase the competitiveness of the Exchange with other options exchanges that also offer increased incentives to higher volume symbols. The proposed changes to the rebate Program are fair and equitable and not unreasonably discriminatory because it will apply equally to all Priority Customer orders in the select symbols. All similarly situated Priority Customer orders in the select symbols are subject to the same rebate schedule, and access to the Exchange is offered on terms that are not unfairly discriminatory. In addition,

¹⁰ Despite providing credits under the Program, the Exchange represents that it will continue to have adequate resources to fund its regulatory program and fulfill its responsibilities as a self-regulatory organization while the Program will be in effect.

¹¹ 15 U.S.C. 78f(b).

¹² 15 U.S.C. 78f(b)(4).

the Program is equitable and not unfairly discriminatory because, while only Priority Customer order flow qualifies for the Program, an increase in Priority Customer order flow will bring greater volume and liquidity, which benefit all market participants by providing more trading opportunities and tighter spreads.

4. Self-Regulatory Organization's Statement on Burden on Competition

MIAX does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed change would increase both intermarket and intramarket competition by incenting Members to direct their Priority Customer orders in the select symbols to the Exchange, which will enhance the quality of quoting and increase the volume of contracts traded here in those symbols. To the extent that there is additional competitive burden on non-Priority Customers or trading in non-select symbols, the Exchange believes that this is appropriate because the proposed changes to the rebate program should incent Members to direct additional order flow to the Exchange and thus provide additional liquidity that enhances the quality of its markets and increases the volume of contracts traded here in those symbols. To the extent that this purpose is achieved, all the Exchange's market participants should benefit from the improved market liquidity in such select symbols. Enhanced market quality and increased transaction volume that results from the anticipated increase in order flow directed to the Exchange will benefit all market participants and improve competition on the Exchange in such select symbols. The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and to attract order flow to the Exchange. The

Exchange believes that the proposed rule change reflects this competitive environment because it reduces the Exchange's fees in a manner that encourages market participants to direct their customer order flow, to provide liquidity, and to attract additional transaction volume to the Exchange. Given the robust competition for volume among options markets, many of which offer the same products, implementing a volume based customer rebate program to attract order flow like the one being proposed in this filing is consistent with the above-mentioned goals of the Act. This is especially true for the smaller options markets, such as MIAX, which is competing for volume with much larger exchanges that dominate the options trading industry. MIAX has a nominal percentage of the average daily trading volume in options, so it is unlikely that the customer rebate program could cause any competitive harm to the options market or to market participants. Rather, the customer rebate program is a modest attempt by a small options market to attract order volume away from larger competitors by adopting an innovative pricing strategy. The Exchange notes that if the rebate program resulted in a modest percentage increase in the average daily trading volume in options executing on MIAX, while such percentage would represent a large volume increase for MIAX, it would represent a minimal reduction in volume of its larger competitors in the industry. The Exchange believes that the proposal will help further competition, because market participants will have yet another additional option in determining where to execute orders and post liquidity if they factor the benefits of a customer rebate program into the determination.

No written comments were either solicited or received.

6. **Extension of Time Period for Commission Action**

Not applicable.

7. **Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)**

in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Priority Customer Rebate Program (the “Program”)³ to expand the number of option classes that qualify for a per contract credit for transactions in MIAX Select Symbols⁴.

Under the Program, the Exchange credits each Member the per contract amount set forth in the Fee Schedule resulting from each Priority Customer⁵ order transmitted by that Member which is executed on the Exchange in all multiply-listed option classes (excluding mini-options, Priority Customer-to-Priority Customer Orders, PRIME AOC Responses, PRIME Contra-side Orders, PRIME Orders for which both the Agency and Contra-side Order are Priority Customers, and executions related to contracts that are routed to one or more exchanges in connection with the Options Order Protection and Locked/Crossed Market Plan referenced in MIAX Rule 1400), provided the Member meets certain volume thresholds in a month. For each Priority Customer

⁴ The term “MIAX Select Symbols” currently means options overlying AA, AAL, AAPL, AIG, AMZN, AZN, BP, C, CBS, CLF, CMCSA, EBAY, EEM, EFA, EWJ, FB, FCX, FXI, GE, GILD, GLD, GM, GOOG, GOOGL, HTZ, INTC, IWM, IYR, JCP, JPM, KO, MO, MRK, NFLX, NOK, NQ, PBR, PCLN, PFE, PG, QCOM, QQQ, S, SIRI, SPY, SUNE, T, TSLA, USO, VALE, WAG, WFC, WMB, WY, XHB, XLE, XLF, XLP, XLU and XOM.

⁵ The term “Priority Customer” means a person or entity that (i) is not a broker or dealer in securities, and (ii) does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial accounts(s). See MIAX Rule 100.

order submitted into the PRIME Auction as a PRIME Agency Order, MIAX shall credit each member at the separate per contract rate for PRIME Agency Orders; however, no rebates will be paid if the PRIME Agency Order executes against a Contra-side Order which is also a Priority Customer. The volume thresholds are calculated based on the customer average daily volume over the course of the month. Volume is recorded for and credits are delivered to the Member Firm that submits the order to the Exchange. The Exchange aggregates the contracts resulting from Priority Customer orders transmitted and executed electronically on the Exchange from affiliated Members for purposes of the thresholds above, provided there is at least 75% common ownership between the firms as reflected on each firm's Form BD, Schedule A. In the event of a MIAX System outage or other interruption of electronic trading on MIAX, the Exchange adjusts the national customer volume in multiply-listed options for the duration of the outage. A Member may request to receive its credit under the Program as a separate direct payment.

The Exchange proposes modifying the Program to expand the number of option classes that qualify for a per contract credit for transactions in MIAX Select Symbols. MIAX Select Symbols currently include options overlying AA, AAL, AAPL, AIG, AMZN, AZN, BP, C, CBS, CLF, CMCSA, EBAY, EEM, EFA, EWJ, FB, FCX, FXI, GE, GILD, GLD, GM, GOOG, GOOGL, HTZ, INTC, IWM, IYR, JCP, JPM, KO, MO, MRK, NFLX, NOK, NQ, PBR, PCLN, PFE, PG, QCOM, QQQ, S, SIRI, SPY, SUNE, T, TSLA, USO, VALE, WAG, WFC, WMB, WY, XHB, XLE, XLF, XLP, XLU and XOM. The Exchange proposes to modify the MIAX Select Symbols to add BABA. Thus, the Exchange will credit each Member the per contract rate set forth in the table located in the Fee Schedule resulting from each Priority Customer order transmitted by that Member executed on Exchange in AA, AAL, AAPL, AIG, AMZN, AZN, BABA, BP, C, CBS, CLF, CMCSA, EBAY, EEM, EFA, EWJ, FB, FCX, FXI, GE, GILD, GLD, GM, GOOG, GOOGL, HTZ, INTC, IWM, IYR, JCP, JPM, KO, MO, MRK, NFLX, NOK, NQ,

PBR, PCLN, PFE, PG, QCOM, QQQ, S, SIRI, SPY, SUNE, T, TSLA, USO, VALE, WAG, WFC, WMB, WY, XHB, XLE, XLF, XLP, XLU and XOM. The per contract credit would be in lieu of the applicable credit that would otherwise apply to the transaction based on the volume thresholds. The Exchange notes that all the other aspects of the Program would continue to apply to the credits (e.g., the aggregation of volume of affiliates, exclusion of contracts that are routed to away exchanges, exclusion of mini-options ... etc.).⁶

For example, if Member Firm ABC, Inc. (“ABC”) has enough Priority Customer contracts to achieve 0.5% of the national customer volume in multiply-listed option contracts during the month of October, ABC will receive a credit of \$0.15 for each Priority Customer contract executed in the month of October. However, any qualifying Priority Customer transactions during such month that occurred in AA, AAL, AAPL, AIG, AMZN, AZN, BABA, BP, C, CBS, CLF, CMCSA, EBAY, EEM, EFA, EWJ, FB, FCX, FXI, GE, GILD, GLD, GM, GOOG, GOOGL, HTZ, INTC, IWM, IYR, JCP, JPM, KO, MO, MRK, NFLX, NOK, NQ, PBR, PCLN, PFE, PG, QCOM, QQQ, S, SIRI, SPY, SUNE, T, TSLA, USO, VALE, WAG, WFC, WMB, WY, XHB, XLE, XLF, XLP, XLU and XOM would be credited at the \$0.20 per contact rate versus the standard credit of \$0.15. Similarly, if Member Firm XYZ, Inc. (“XYZ”) has enough Priority Customer contracts to achieve 2.5% of the national customer volume in multiply-listed option contracts during the month of October, XYZ will receive a credit of \$0.18 for each Priority Customer contract executed in the month of October. However, any qualifying

The purpose of the amendment to the Program is to further encourage Members to direct greater Priority Customer trade volume to the Exchange in these high volume symbols. Increased Priority Customer volume will provide for greater liquidity, which benefits all market participants on the Exchange. The practice of incentivizing increased retail customer order flow in order to attract professional liquidity providers (Market-Makers) is, and has been, commonly practiced in the options markets. As such, marketing fee programs,⁷ and customer posting incentive programs,⁸ are based on attracting public customer order flow. The practice of providing additional incentives to increase order flow in high volume symbols is, and has been, commonly practiced in the options markets.⁹ The Program similarly intends to attract Priority Customer order flow, which will increase liquidity, thereby providing greater trading opportunities and tighter spreads for other market participants and causing a corresponding increase in order flow from such other market participants in these select symbols. Increasing

the number of orders sent to the Exchange will in turn provide tighter and more liquid markets, and therefore attract more business overall.

The credits paid out as part of the program will be drawn from the general revenues of the Exchange.¹⁰ The Exchange calculates volume thresholds on a monthly basis.

2. Statutory Basis

The Exchange believes that its proposal to amend its fee schedule is consistent with Section 6(b) of the Act¹¹ in general, and furthers the objectives of Section 6(b)(4) of the Act¹² in particular, in that it is an equitable allocation of reasonable fees and other charges among Exchange members.

The Exchange believes that the proposal to modify the Program to expand the number of option classes that qualify for the credit for transactions in MIAX Select Symbols is fair, equitable and not unreasonably discriminatory. The credit for transactions in the select symbols is reasonably designed because it will incent providers of Priority Customer order flow to send that Priority Customer order flow to the Exchange in order to receive a credit in a manner that enables the Exchange to improve its overall competitiveness and strengthen its market quality for all market participants. The Program which provides increased incentives in high volume select symbols is also reasonably designed to increase the competitiveness of the Exchange with other options exchanges that also offer increased incentives to higher volume symbols. The proposed changes to the rebate Program are fair and equitable and not unreasonably discriminatory because it will apply equally to all Priority Customer orders in the select symbols. All similarly

¹⁰ Despite providing credits under the Program, the Exchange represents that it will continue to have adequate resources to fund its regulatory program and fulfill its responsibilities as a self-regulatory organization while the Program will be in effect.

situated Priority Customer orders in the select symbols are subject to the same rebate schedule, and access to the Exchange is offered on terms that are not unfairly discriminatory. In addition, the Program is equitable and not unfairly discriminatory because, while only Priority Customer order flow qualifies for the Program, an increase in Priority Customer order flow will bring greater volume and liquidity, which benefit all market participants by providing more trading opportunities and tighter spreads.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed change would increase both intermarket and intramarket competition by incenting Members to direct their Priority Customer orders in the select symbols to the Exchange, which will enhance the quality of quoting and increase the volume of contracts traded here in those symbols. To the extent that there is additional competitive burden on non-Priority Customers or trading in non-select symbols, the Exchange believes that this is appropriate because the proposed changes to the rebate program should incent Members to direct additional order flow to the Exchange and thus provide additional liquidity that enhances the quality of its markets and increases the volume of contracts traded here in those symbols. To the extent that this purpose is achieved, all the Exchange's market participants should benefit from the improved market liquidity in such select symbols. Enhanced market quality and increased transaction volume that results from the anticipated increase in order flow directed to the Exchange will benefit all market participants and improve competition on the Exchange in such select symbols. The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive. In such an environment, the Exchange must continually adjust its fees to

remain competitive with other exchanges and to attract order flow to the Exchange. The Exchange believes that the proposed rule change reflects this competitive environment because it reduces the Exchange's fees in a manner that encourages market participants to direct their customer order flow, to provide liquidity, and to attract additional transaction volume to the Exchange. Given the robust competition for volume among options markets, many of which offer the same products, implementing a volume based customer rebate program to attract order flow like the one being proposed in this filing is consistent with the above-mentioned goals of the Act. This is especially true for the smaller options markets, such as MIAX, which is competing for volume with much larger exchanges that dominate the options trading industry. MIAX has a nominal percentage of the average daily trading volume in options, so it is unlikely that the customer rebate program could cause any competitive harm to the options market or to market participants. Rather, the customer rebate program is a modest attempt by a small options market to attract order volume away from larger competitors by adopting an innovative pricing strategy. The Exchange notes that if the rebate program resulted in a modest percentage increase in the average daily trading volume in options executing on MIAX, while such percentage would represent a large volume increase for MIAX, it would represent a minimal reduction in volume of its larger competitors in the industry. The Exchange believes that the proposal will help further competition, because market participants will have yet another additional option in determining where to execute orders and post liquidity if they factor the benefits of a customer rebate program into the determination.

separate per contract rate for MIAX Select Symbols. For each Priority Customer order submitted into the PRIME Auction as a PRIME Agency Order, MIAX shall credit each member at the separate per contract rate for PRIME Agency Orders; however, no rebates will be paid if the PRIME Agency Order executes against a Contra-side Order which is also a Priority Customer. This payment will be calculated from the first executed contract at the applicable threshold per contract credit with rebate payments made at the highest achieved volume tier for each contract traded in that month. The percentage thresholds are calculated based on the percentage of national customer volume in multiply-listed options classes listed on MIAX entered and executed over the course of the month (excluding Priority Customer-to-Priority Customer Orders, PRIME AOC Responses, PRIME Contra-side Orders, PRIME Orders for which both the Agency and Contra-side Order are Priority Customers). Volume will be recorded for and credits will be delivered to the Member Firm that submits the order to MIAX. MIAX will aggregate the contracts resulting from Priority Customer orders transmitted and executed electronically on MIAX from affiliated Members for purposes of the thresholds described in the Priority Customer Rebate Program table, provided there is at least 75% common ownership between the firms as reflected on each firm's Form BD, Schedule A. In the event of a MIAX System outage or other interruption of electronic trading on MIAX, the Exchange will adjust the national customer volume in multiply-listed options for the duration of the outage. A Member may request to receive its credit under the Priority Customer Rebate Program as a separate direct payment.
