Such partial

amendment shall be clearly identified and marked to show deletions and additions.

SR-PEARL-2020-06 Page 3 of 33

1. Text of the Proposed Rule Change

(a) MIAX PEARL, LLC ("MIAX PEARL" or "Exchange"), pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² proposes to amend certain of the Exchange's rules to conform to Section 3.1 of the Plan for the Purpose of Developing and Implementing Procedures Designed to Facilitate the Listing and Trading of Standardized Options (the "OLPP") and add new subparagraphs (a)(3)(i)-(iii) and (c) to Exchange Rule 510.

A notice of the proposed rule change for publication in the <u>Federal Register</u> is attached hereto as <u>Exhibit 1</u>, and the text of the proposed rule change is attached hereto as <u>Exhibit 5</u>.

- (b) Not applicable.
- (c) Not applicable.

2. <u>Procedures of the Self-Regulatory Organization</u>

The proposed rule changes were approved by the Chief Executive Officer of the Exchange pursuant to authority delegated by the MIAX PEARL Board of Directors on January 29, 2020. Exchange staff will advise the Board of Directors of any action taken pursuant to delegated authority. No other action by the Exchange is necessary for the filing of the proposed rule changes.

Questions and comments on the proposed rule changes may be directed to Michael Slade, Counsel, at (609) 897-8499.

3. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis</u> for, the Proposed Rule Change

a. <u>Purpose</u>

The purpose of this rule change is to amend Exchange Rule 404, Series of Option

Contracts Open for Trading, and Exchange Rule 510, Minimum Price Variations and Minimum

Trading Increments, to align the Exchange's rules with the recently approved amendment to the

OLPP.

Background

On January 23, 2007, the Commission approved on a limited basis a Penny Pilot in option classes in certain issues ("Penny Pilot"). The Penny Pilot was designed to determine whether investors would benefit from options being quoted in penny increments, and in which classes the benefits were most significant. The Penny Pilot was initiated at the then existing option exchanges in January 2007³ and expanded and extended numerous times over the last 13 years. In each instance, these approvals relied upon the consideration of data periodically provided by the Exchanges that analyzed how quoting options in penny increments affects spreads, liquidity, quote traffic, and volume. Today, the Penny Pilot includes 363 option classes, which are among

^{See Securities Exchange Act Release Nos. 87609 (November 25, 2019), 84 FR 66032 (December 2, 2019) (SR-PEARL-2019-34); 86049 (June 6, 2019), 84 FR 27381 (June 12, 2019) (SR-PEARL-2019-20); 84865 (December 19, 2018), 83 FR 66813 (December 27, 2018) (SR-PEARL-2018-26); 83517 (June 25, 2018), 83 FR 30792 (June 29, 2018) (SR-PEARL-2018-14); 82391 (December 22, 2017), 82 FR 61622 (December 28, 2017) (SR-PEARL-2017-39); 80758 (May 24, 2017), 82 FR 25022 (May 31, 2017) (SR-PEARL-2017-24); and 79778 (January 12, 2016), 82 FR 6662 (January 19, 2017) (SR-PEARL-2016-01).}

SR-PEARL-2020-06 Page 5 of 33

the most actively traded, multiply listed option classes. The Penny Pilot is scheduled to expire by its own terms on June 30, 2020.⁵

In light of the imminent expiration of the Penny Pilot, on June 30, 2020, the Exchange, together with other participating exchanges, filed on July 18, 2019, a proposal to amend the OLPP.⁶ On April 1, 2020, the U.S. Securities and Exchange Commission ("Commission") approved the amendment to the OLPP to make permanent the Pilot Program (the "OLPP Program").⁷

The OLPP Program replaces the Penny Pilot by instituting a permanent program that would permit quoting in penny increments for certain option classes. Under the terms of the OLPP Program, designated option classes would continue to be quoted in \$0.01 and \$0.05 increments according to the same parameters for the Penny Pilot. In addition, the OLPP Program would: (i) establish an annual review process to add option classes to, or to remove option classes from, the OLPP Program; (ii) allow an option class to be added to the OLPP Program if it is a newly listed option class and it meets certain criteria; (iii) allow an option class to be added to the OLPP Program if it is an option class that has seen significant growth in activity; (iv) provide that if a corporate action involves one or more option classes in the OLPP Program, all adjusted and unadjusted series and classes emerging as a result of the corporate action will be included in the OLPP Program; and (v) provide that any series in an option class participating in

See Securities Exchange Act Release No. 87609 (November 25, 2019), 84 FR 66032 (December 2, 2019) (SR-PEARL-2019-34).

SR-PEARL-2020-06 Page 6 of 33

the OLPP Program that have been delisted, or are identified by OCC as ineligible for opening Customer transactions, will continue to trade pursuant to the OLPP Program until they expire.

To conform its rules with the OLPP Program, the Exchange proposes to delete Interpretation and Policy .01 to Exchange Rule 510 (the "Penny Pilot Rule"), which will be "Reserved," and replace it with new Exchange Rule 510(c) (Requirements for Penny Interval Program), which is described below, and to replace references to the "Penny Pilot" in several Exchange rules with "Penny Interval Program."

The Exchange also proposes to amend Exchange Rule 510, Minimum Price Variations and Minimum Trading Increments, to adopt subparagraphs (a)(3)(i)-(iii) to conform the Exchange's rules regarding minimum price variations for options in the proposed Penny Interval Program with similar rules of other option exchanges. In particular, the Exchange proposes to adopt subparagraph (a)(3)(i)-(iii), which will describe that for options contracts traded pursuant to the proposed Penny Interval Program (which the Exchange has proposed as new Exchange Rule 510(c)): (i) all option contracts in QQQ, SPY and IWM will quote in a minimum of one cent (\$0.01) price variations; (ii) for all other option contracts included in the Penny Interval Program that are trading at less than \$3, those option contracts will quote in a minimum of one cent (\$0.01) price variations; and (iii) for all other option contracts included in the Penny Interval Program that are trading at or above \$3, those option contracts will quote in a minimum of five cents (\$0.05) price variations. The Exchange notes that the Commission previously approved minimum quoting increments of one cent (\$0.01) for all option contracts in QQQ, IWM and

^{8 &}lt;u>See NYSE Arca Rule 6.72-O (Trading Differentials); see also Nasdaq Stock Market, Options 3, Section 3, Supplementary Material .01.</u>

SR-PEARL-2020-06 Page 7 of 33

SPY, regardless of price, over the course of the expansion of the Penny Pilot rules.⁹
Accordingly, the Exchange proposes to align its rules regarding minimum price variations for option contracts in the Penny Interval Program with other option exchanges.

Penny Interval Program

The Exchange proposes to codify the OLPP Program in new Exchange Rule 510(c) (Requirements for Penny Interval Program) (the "Penny Program"), which will replace the Penny Pilot Rule and permanently permit the Exchange to quote certain option classes in minimum increments of one cent (\$0.01) and five cents (\$0.05) ("penny increments"). The penny increments that currently apply under the Penny Pilot will continue to apply for option classes included in the Penny Program. Specifically, (i) the minimum quoting increment for all series in the QQQ, SPY, and IWM would continue to be \$0.01, regardless of price (which the Exchange proposes to codify in proposed Exchange Rule 510(a)(3)(i)-(iii)); (ii) all series of an option class included in the Penny Program with a price of less than \$3.00 would be quoted in \$0.01 increments; and (iii) all series of an option class included in the Penny Program with a price of \$3.00 or higher would be quoted in \$0.05 increments.

The Penny Program would initially apply to the 363 most actively traded multiply listed option classes, based on National Cleared Volume at The Options Clearing Corporation ("OCC") in the six full calendar months ending in the month of approval (i.e., November 2019 - April 2020) that currently quote in penny increments, or overlie securities priced below \$200, or any

See Securities Exchange Act Release Nos. 55156 (January 23, 2007), 72 FR 4759 (February 1, 2007) (SR-NYSEArca-2006-73) (Order Granting Approval to Proposed rule Change as Modified by Amendment No. 1 Thereto, To Create an Options Penny Pilot Program); 61061 (November 24, 2009), 74 FR 62857 (December 1, 2009) (SR-NYSEArca-2009-44) (Order Granting Partial Approval of a Proposed Rule Change, as Modified by Amendment No. 4 Thereto, Expanding the Penny Pilot Program).

^{10 &}lt;u>See</u> proposed Exchange Rule 510(a)(3)(i)-(iii).

SR-PEARL-2020-06 Page 8 of 33

index at an index level below \$200. Eligibility for inclusion in the Penny Program will be determined at the close of trading on the monthly Expiration Friday of the second full month following April 1, 2020 (i.e., June 19, 2020).

Once in the Penny Program, an option class will remain included until it is no longer among the 425 most actively traded option classes at the time the annual review is conducted (described below), at which point it will be removed from the Penny Program. As described in more detail below, the removed class will be replaced by the next most actively traded multiply listed option class overlying securities priced below \$200 per share, or any index at an index level below \$200, and not yet in the Penny Program. Advanced notice regarding the option classes included, added, or removed from the Penny Program will be provided to the Exchange's Members via Regulatory Circular and published by the Exchange on its website.

Annual Review

The Penny Program would include an annual review process that applies objective criteria to determine option classes to be added to, or removed from, the Penny Program. Specifically, on an annual basis beginning in December 2020 and occurring every December thereafter, the Exchange will review and rank all multiply listed option classes based on National Cleared Volume at OCC for the six full calendar months from June 1st through November 30th for determination of the most actively traded option classes. Any option classes not yet in the Penny Program may be added to the Penny Program if the class is among the 300 most actively traded multiply listed option classes and priced below \$200 per share, or any index at an index level below \$200.

Following the annual review, option classes to be added to the Penny Program would begin quoting in penny increments (i.e., \$0.01 if trading at less than \$3.00; and \$0.05 if trading at

SR-PEARL-2020-06 Page 9 of 33

\$3.00 and above) on the first trading day of January. In addition, following the annual review, any option class in the Penny Program that falls outside of the 425 most actively traded option classes would be removed from the Penny Program. After the annual review, option classes that are removed from the Penny Program will be subject to the minimum trading increments set forth in Exchange Rule 510, effective on the first trading day of April.

<u>Changes to the Composition of the Penny Program Outside of the Annual Review</u>

<u>Newly Listed Option Classes and Option Classes with Significant Growth in Activity</u>

The Penny Program would specify a process and parameters for including option classes in the Penny Program outside the annual review process in two circumstances. These provisions are designed to provide objective criteria to add to the Penny Program new option classes in issues with the most demonstrated trading interest from market participants and investors on an expedited basis prior to the annual review, with the benefit that market participants and investors will then be able to trade these new option classes based upon quotes expressed in finer trading increments.

First, the Penny Program provides for certain newly listed option classes to be added to the Penny Program outside of the annual review process, provided that (i) the class is among the 300 most actively traded, multiply listed option classes, as ranked by National Cleared Volume at OCC, in its first full calendar month of trading and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200. Such newly listed option classes added to the Penny Program pursuant to this process would remain in the Penny Program for one full calendar year and then would be subject to the annual review process.

Second, the Penny Program would allow an option class to be added to the Penny

Program outside of the annual review process if it is an option class that meets certain specific

SR-PEARL-2020-06 Page 10 of 33

criteria. Specifically, new option classes may be added to the Penny Program if: (i) the option class is among the 75 most actively traded multiply listed option classes, as ranked by National Cleared Volume at OCC, in the prior six full calendar months of trading and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200. Any option class added under this provision will be added on the first trading day of the second full month after it qualifies and will remain in the Penny Program for the rest of the calendar year, after which it will be subject to the annual review process.

Corporate Actions

The Penny Program would also specify a process to address option classes in the Penny Program that undergo a corporate action and is designed to ensure continuous liquidity in the affected option classes. Specifically, if a corporate action involves one or more option classes in the Penny Program, all adjusted and unadjusted series of an option class would continue to be included in the Penny Program. ¹¹ Furthermore, neither the trading volume threshold, nor the initial price test would apply to option classes added to the Penny Program as a result of the corporate action. Finally, the newly added adjusted and unadjusted series of the option class would remain in the Penny Program for one full calendar year and then would become subject to the annual review process.

Delisted or Ineligible Option Classes

Finally, the Penny Program would provide a mechanism to address option classes that have been delisted or those that are no longer eligible for listing. Specifically, any series in an option class participating in the Penny Program in which the underlying has been delisted, or is

For example, if Company A acquires Company B and Company A is not in the Penny Program but Company B is in the Penny Program, once the merger is consummated and an options contract adjustment is effective, then Company A would be added to the Penny Program and remain in the Penny Program for one calendar year.

SR-PEARL-2020-06 Page 11 of 33

identified by OCC as ineligible for opening customer transactions, would continue to quote pursuant to the terms of the Penny Program until all options series have expired.

Technical Changes

The Exchange proposes to replace references to the Penny Pilot with the new reference to the Penny Interval Program. These proposed changes would be to Penny Pilot references in Exchange Rule 404, Interpretation and Policy .08(d). The Exchange believes these technical changes would add clarity, transparency and internal consistency to the Exchange's rules making them easier for market participants to navigate.

Implementation

This proposed rule change will become operative on July 1, 2020, upon expiration of the current Penny Pilot on June 30, 2020. The Exchange proposes to implement the Penny Program on July 1, 2020, which is the first trading day of the third month following the Approval Order issued on April 1, 2020 – i.e., July 1, 2020.

b. <u>Statutory Basis</u>

The Exchange believes that its proposed rule change is consistent with Section 6(b) of the Act¹² in general, and furthers the objectives of Section 6(b)(5) of the Act¹³ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

¹⁵ U.S.C. 78f(b).

¹⁵ U.S.C. 78f(b)(5).

SR-PEARL-2020-06 Page 12 of 33

In particular, the proposed rule change, which conforms the Exchange rules to the recently adopted OLPP Program, allows the Exchange to provide market participants with a permanent Penny Program for quoting options in penny increments, which maximizes the benefit of quoting in a finer quoting increment to investors while minimizing the burden that a finer quoting increment places on quote traffic.

Accordingly, the Exchange believes that the proposal is consistent with the Act because, in conforming the Exchange rules to the OLPP Program, the Penny Program would employ processes, based upon objective criteria, that would rebalance the composition of the Penny Program, thereby helping to ensure that the most actively traded option classes are included in the Penny Program, which helps facilitate the maintenance of a fair and orderly market.

Technical Changes

The Exchange notes that the proposed changes to Exchange Rule 404, Interpretation and Policy .08(d), to replace references to the Penny Pilot with references to the Penny Interval Program would provide clarity and transparency to the Exchange rules and would promote just and equitable principles of trade and remove impediments to, and perfect the mechanism of, a free and open market and a national market system. The proposed rule changes would also provide internal consistency within Exchange rules and operate to protect investors and the investing public by making the Exchange rules easier to navigate and comprehend.

4. <u>Self-Regulatory Organization's Statement on Burden on Competition</u>

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed Penny Program, which modifies the Exchange's rules to align them with the Commission approved OLPP Program, is not designed to be a competitive filing nor does it impose an undue burden on intermarket competition as the Exchange anticipates that the options

SR-PEARL-2020-06 Page 13 of 33

exchanges will adopt substantially identical rules. Moreover, the Exchange believes that by conforming Exchange rules to the OLPP Program, the Exchange would promote regulatory clarity and consistency, thereby reducing burdens on the marketplace and facilitating investor protection. To the extent that there is a competitive burden on those option classes that do not qualify for the Penny Program, the Exchange believes that it is appropriate because the proposal should benefit all market participants and investors by maximizing the benefit of a finer quoting increment in those option classes with the most trading interest while minimizing the burden of greater quote traffic in option classes with less trading interest. The Exchange believes that adopting rules, which it anticipates will likewise be adopted by all option exchanges that are participants in the OLPP, would allow for continued competition between Exchange market participants trading similar products as their counterparts on other exchanges, while at the same time allowing the Exchange to continue to compete for order flow with other exchanges.

5. <u>Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others</u>

No written comments were either solicited or received.

Extension of Time Period for Commission Action

Not applicable.

7. <u>Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)</u>

Pursuant to Section 19(b)(3)(A) of the Act¹⁴ and Rule 19b-4(f)(6)¹⁵ thereunder, the Exchange has designated this proposal as one that effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the

¹⁵ U.S.C. 78s(b)(3)(A).

¹⁵ 17 CFR 240.19b-4(f)(6).

SR-PEARL-2020-06 Page 14 of 33

date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange believes that the proposal is non-controversial, does not pose an undue burden on competition, and does not raise any novel issues as the proposed changes would allow the Exchange to conform its rules to the recently adopted OLPP Program to the benefit of market participants. The proposal allows the Exchange to provide market participants with a permanent Penny Program for quoting options in penny increments, and an objective criteria for modifying the option classes included Penny Program issues, which maximizes the benefit to investors while minimizing the burden that a finer quoting increment places on quote traffic. Further, the Exchange notes that this proposal does not propose any new policies or provisions, but instead seeks to modify Exchange rules to conform to the OLPP Program, which was approved on April 1, 2020. Accordingly, the proposal would allow the Exchange to modify its rules to be consistent with the OLPP Program as soon as possible.

The Exchange believes that proposed technical changes are non-controversial and do not impact competition but instead would benefit investors and the investing public by conforming Exchange rules to the OLPP Program and making the Exchange rules easier to navigate. The Exchange believes that the proposed additional specificity would promote a free and open market for the benefit of investors and the investing public.

Accordingly, because the proposal does not raise any new or novel regulatory or substantive issues, the Exchange believes the proposed rule change is non-controversial and is therefore eligible for immediately effective treatment under the Commission's current procedures for processing rule filings.

SR-PEARL-2020-06 Page 15 of 33

Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement. Furthermore, a proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act¹⁶ normally does not become operative for 30 days after the date of its filing.

For the foregoing reasons, the rule filing qualifies for immediate effectiveness as a "non-controversial" rule change under Rule 19b-4(f)(6). ¹⁷ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

SECURITIES AND EXCHANGE COMMISSION (Release No. 34- ; File No. SR-PEARL-2020-06)

May___, 2020

Self-Regulatory Organizations: Notice of Filing and Immediate Effectiveness of a Proposed Rule Change by MIAX PEARL, LLC to Amend Exchange Rule 404, Series of Option Contracts Open for Trading, and Rule 510, Minimum Price Variations and Minimum Trading Increments, to conform the Rules to Section 3.1 of the Plan for the Purpose of Developing and Implementing Procedures Designed to Facilitate the Listing and Trading of Standardized Options

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 29, 2020, MIAX PEARL, LLC ("MIAX PEARL" or the "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. <u>Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed</u> Rule Change

The Exchange is filing a proposal to amend certain of the Exchange's rules to conform to Section 3.1 of the Plan for the Purpose of Developing and Implementing Procedures Designed to Facilitate the Listing and Trading of Standardized Options (the "OLPP") and add new subparagraphs (a)(3)(i)-(iii) and (c) to Exchange Rule 510.

The text of the proposed rule change is available on the Exchange's website at http://www.miaxoptions.com/rule-filings/pearl at MIAX PEARL's principal office, and at the Commission's Public Reference Room.

SR-PEARL-2020-06 Page 18 of 33

II. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change</u>

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory</u> <u>Basis for, the Proposed Rule Change</u>

1. Purpose

The purpose of this rule change is to amend Exchange Rule 404, Series of Option Contracts Open for Trading, and Exchange Rule 510, Minimum Price Variations and Minimum Trading Increments, to align the Exchange's rules with the recently approved amendment to the OLPP.

Background

On January 23, 2007, the Commission approved on a limited basis a Penny Pilot in option classes in certain issues ("Penny Pilot"). The Penny Pilot was designed to determine whether investors would benefit from options being quoted in penny increments, and in which classes the benefits were most significant. The Penny Pilot was initiated at the then existing option

SR-PEARL-2020-06 Page 19 of 33

exchanges in January 2007³ and expanded and extended numerous times over the last 13 years.⁴ In each instance, these approvals relied upon the consideration of data periodically provided by the Exchanges that analyzed how quoting options in penny increments affects spreads, liquidity, quote traffic, and volume. Today, the Penny Pilot includes 363 option classes, which are among the most actively traded, multiply listed option classes. The Penny Pilot is scheduled to expire by its own terms on June 30, 2020.⁵

In light of the imminent expiration of the Penny Pilot, on June 30, 2020, the Exchange, together with other participating exchanges, filed on July 18, 2019, a proposal to amend the OLPP.⁶ On April 1, 2020, the U.S. Securities and Exchange Commission ("Commission") approved the amendment to the OLPP to make permanent the Pilot Program (the "OLPP Program").⁷

SR-PEARL-2020-06 Page 20 of 33

The OLPP Program replaces the Penny Pilot by instituting a permanent program that would permit quoting in penny increments for certain option classes. Under the terms of the OLPP Program, designated option classes would continue to be quoted in \$0.01 and \$0.05 increments according to the same parameters for the Penny Pilot. In addition, the OLPP Program would: (i) establish an annual review process to add option classes to, or to remove option classes from, the OLPP Program; (ii) allow an option class to be added to the OLPP Program if it is a newly listed option class and it meets certain criteria; (iii) allow an option class to be added to the OLPP Program if it is an option class that has seen significant growth in activity; (iv) provide that if a corporate action involves one or more option classes in the OLPP Program, all adjusted and unadjusted series and classes emerging as a result of the corporate action will be included in the OLPP Program; and (v) provide that any series in an option class participating in the OLPP Program that have been delisted, or are identified by OCC as ineligible for opening Customer transactions, will continue to trade pursuant to the OLPP Program until they expire.

To conform its rules with the OLPP Program, the Exchange proposes to delete Interpretation and Policy .01 to Exchange Rule 510 (the "Penny Pilot Rule"), which will be "Reserved," and replace it with new Exchange Rule 510(c) (Requirements for Penny Interval Program), which is described below, and to replace references to the "Penny Pilot" in several Exchange rules with "Penny Interval Program."

The Exchange also proposes to amend Exchange Rule 510, Minimum Price Variations and Minimum Trading Increments, to adopt subparagraphs (a)(3)(i)-(iii) to conform the Exchange's rules regarding minimum price variations for options in the proposed Penny Interval Program with similar rules of other option exchanges.⁸ In particular, the Exchange proposes to

See NYSE Arca Rule 6.72-O (Trading Differentials); see also Nasdaq Stock Market, Options 3, Section 3, Supplementary Material .01.

SR-PEARL-2020-06 Page 21 of 33

adopt subparagraph (a)(3)(i)-(iii), which will describe that for options contracts traded pursuant to the proposed Penny Interval Program (which the Exchange has proposed as new Exchange Rule 510(c)): (i) all option contracts in QQQ, SPY and IWM will quote in a minimum of one cent (\$0.01) price variations; (ii) for all other option contracts included in the Penny Interval Program that are trading at less than \$3, those option contracts will quote in a minimum of one cent (\$0.01) price variations; and (iii) for all other option contracts included in the Penny Interval Program that are trading at or above \$3, those option contracts will quote in a minimum of five cents (\$0.05) price variations. The Exchange notes that the Commission previously approved minimum quoting increments of one cent (\$0.01) for all option contracts in QQQ, IWM and SPY, regardless of price, over the course of the expansion of the Penny Pilot rules. Accordingly, the Exchange proposes to align its rules regarding minimum price variations for option contracts in the Penny Interval Program with other option exchanges.

Penny Interval Program

The Exchange proposes to codify the OLPP Program in new Exchange Rule 510(c) (Requirements for Penny Interval Program) (the "Penny Program"), which will replace the Penny Pilot Rule and permanently permit the Exchange to quote certain option classes in minimum increments of one cent (\$0.01) and five cents (\$0.05) ("penny increments"). The penny increments that currently apply under the Penny Pilot will continue to apply for option classes included in the Penny Program. Specifically, (i) the minimum quoting increment for all series in the QQQ, SPY, and IWM would continue to be \$0.01, regardless of price (which the Exchange

See Securities Exchange Act Release Nos. 55156 (January 23, 2007), 72 FR 4759 (February 1, 2007) (SR-NYSEArca-2006-73) (Order Granting Approval to Proposed rule Change as Modified by Amendment No. 1 Thereto, To Create an Options Penny Pilot Program); 61061 (November 24, 2009), 74 FR 62857 (December 1, 2009) (SR-NYSEArca-2009-44) (Order Granting Partial Approval of a Proposed Rule Change, as Modified by Amendment No. 4 Thereto, Expanding the Penny Pilot Program).

SR-PEARL-2020-06 Page 22 of 33

proposes to codify in proposed Exchange Rule 510(a)(3)(i)-(iii)); (ii) all series of an option class included in the Penny Program with a price of less than \$3.00 would be quoted in \$0.01 increments; and (iii) all series of an option class included in the Penny Program with a price of \$3.00 or higher would be quoted in \$0.05 increments.¹⁰

The Penny Program would initially apply to the 363 most actively traded multiply listed option classes, based on National Cleared Volume at The Options Clearing Corporation ("OCC") in the six full calendar months ending in the month of approval (i.e., November 2019 - April 2020) that currently quote in penny increments, or overlie securities priced below \$200, or any index at an index level below \$200. Eligibility for inclusion in the Penny Program will be determined at the close of trading on the monthly Expiration Friday of the second full month following April 1, 2020 (i.e., June 19, 2020).

Once in the Penny Program, an option class will remain included until it is no longer among the 425 most actively traded option classes at the time the annual review is conducted (described below), at which point it will be removed from the Penny Program. As described in more detail below, the removed class will be replaced by the next most actively traded multiply listed option class overlying securities priced below \$200 per share, or any index at an index level below \$200, and not yet in the Penny Program. Advanced notice regarding the option classes included, added, or removed from the Penny Program will be provided to the Exchange's Members via Regulatory Circular and published by the Exchange on its website.

Annual Review

The Penny Program would include an annual review process that applies objective criteria to determine option classes to be added to, or removed from, the Penny Program.

See proposed Exchange Rule 510(a)(3)(i)-(iii).

SR-PEARL-2020-06 Page 23 of 33

Specifically, on an annual basis beginning in December 2020 and occurring every December thereafter, the Exchange will review and rank all multiply listed option classes based on National Cleared Volume at OCC for the six full calendar months from June 1st through November 30th for determination of the most actively traded option classes. Any option classes not yet in the Penny Program may be added to the Penny Program if the class is among the 300 most actively traded multiply listed option classes and priced below \$200 per share, or any index at an index level below \$200.

Following the annual review, option classes to be added to the Penny Program would begin quoting in penny increments (i.e., \$0.01 if trading at less than \$3.00; and \$0.05 if trading at \$3.00 and above) on the first trading day of January. In addition, following the annual review, any option class in the Penny Program that falls outside of the 425 most actively traded option classes would be removed from the Penny Program. After the annual review, option classes that are removed from the Penny Program will be subject to the minimum trading increments set forth in Exchange Rule 510, effective on the first trading day of April.

<u>Changes to the Composition of the Penny Program Outside of the Annual Review</u>

<u>Newly Listed Option Classes and Option Classes with Significant Growth in Activity</u>

The Penny Program would specify a process and parameters for including option classes in the Penny Program outside the annual review process in two circumstances. These provisions are designed to provide objective criteria to add to the Penny Program new option classes in issues with the most demonstrated trading interest from market participants and investors on an expedited basis prior to the annual review, with the benefit that market participants and investors will then be able to trade these new option classes based upon quotes expressed in finer trading increments.

SR-PEARL-2020-06 Page 24 of 33

First, the Penny Program provides for certain newly listed option classes to be added to the Penny Program outside of the annual review process, provided that (i) the class is among the 300 most actively traded, multiply listed option classes, as ranked by National Cleared Volume at OCC, in its first full calendar month of trading and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200. Such newly listed option classes added to the Penny Program pursuant to this process would remain in the Penny Program for one full calendar year and then would be subject to the annual review process.

Second, the Penny Program would allow an option class to be added to the Penny Program outside of the annual review process if it is an option class that meets certain specific criteria. Specifically, new option classes may be added to the Penny Program if: (i) the option class is among the 75 most actively traded multiply listed option classes, as ranked by National Cleared Volume at OCC, in the prior six full calendar months of trading and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200. Any option class added under this provision will be added on the first trading day of the second full month after it qualifies and will remain in the Penny Program for the rest of the calendar year, after which it will be subject to the annual review process.

Corporate Actions

The Penny Program would also specify a process to address option classes in the Penny Program that undergo a corporate action and is designed to ensure continuous liquidity in the affected option classes. Specifically, if a corporate action involves one or more option classes in the Penny Program, all adjusted and unadjusted series of an option class would continue to be included in the Penny Program. ¹¹ Furthermore, neither the trading volume threshold, nor the

For example, if Company A acquires Company B and Company A is not in the Penny Program but Company B is in the Penny Program, once the merger is consummated and

SR-PEARL-2020-06 Page 25 of 33

initial price test would apply to option classes added to the Penny Program as a result of the corporate action. Finally, the newly added adjusted and unadjusted series of the option class would remain in the Penny Program for one full calendar year and then would become subject to the annual review process.

Delisted or Ineligible Option Classes

Finally, the Penny Program would provide a mechanism to address option classes that have been delisted or those that are no longer eligible for listing. Specifically, any series in an option class participating in the Penny Program in which the underlying has been delisted, or is identified by OCC as ineligible for opening customer transactions, would continue to quote pursuant to the terms of the Penny Program until all options series have expired.

Technical Changes

The Exchange proposes to replace references to the Penny Pilot with the new reference to the Penny Interval Program. These proposed changes would be to Penny Pilot references in Exchange Rule 404, Interpretation and Policy .08(d). The Exchange believes these technical changes would add clarity, transparency and internal consistency to the Exchange's rules making them easier for market participants to navigate.

<u>Implementation</u>

This proposed rule change will become operative on July 1, 2020, upon expiration of the current Penny Pilot on June 30, 2020. The Exchange proposes to implement the Penny Program on July 1, 2020, which is the first trading day of the third month following the Approval Order issued on April 1, 2020 – i.e., July 1, 2020.

an options contract adjustment is effective, then Company A would be added to the Penny Program and remain in the Penny Program for one calendar year.

SR-PEARL-2020-06 Page 26 of 33

2. Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b) of the Act¹² in general, and furthers the objectives of Section 6(b)(5) of the Act¹³ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

In particular, the proposed rule change, which conforms the Exchange rules to the recently adopted OLPP Program, allows the Exchange to provide market participants with a permanent Penny Program for quoting options in penny increments, which maximizes the benefit of quoting in a finer quoting increment to investors while minimizing the burden that a finer quoting increment places on quote traffic.

Accordingly, the Exchange believes that the proposal is consistent with the Act because, in conforming the Exchange rules to the OLPP Program, the Penny Program would employ processes, based upon objective criteria, that would rebalance the composition of the Penny Program, thereby helping to ensure that the most actively traded option classes are included in the Penny Program, which helps facilitate the maintenance of a fair and orderly market.

Technical Changes

The Exchange notes that the proposed changes to Exchange Rule 404, Interpretation and Policy .08(d), to replace references to the Penny Pilot with references to the Penny Interval Program would provide clarity and transparency to the Exchange rules and would promote just

¹⁵ U.S.C. 78f(b).

¹⁵ U.S.C. 78f(b)(5).

SR-PEARL-2020-06 Page 27 of 33

and equitable principles of trade and remove impediments to, and perfect the mechanism of, a free and open market and a national market system. The proposed rule changes would also provide internal consistency within Exchange rules and operate to protect investors and the investing public by making the Exchange rules easier to navigate and comprehend.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed Penny Program, which modifies the Exchange's rules to align them with the Commission approved OLPP Program, is not designed to be a competitive filing nor does it impose an undue burden on intermarket competition as the Exchange anticipates that the options exchanges will adopt substantially identical rules. Moreover, the Exchange believes that by conforming Exchange rules to the OLPP Program, the Exchange would promote regulatory clarity and consistency, thereby reducing burdens on the marketplace and facilitating investor protection. To the extent that there is a competitive burden on those option classes that do not qualify for the Penny Program, the Exchange believes that it is appropriate because the proposal should benefit all market participants and investors by maximizing the benefit of a finer quoting increment in those option classes with the most trading interest while minimizing the burden of greater quote traffic in option classes with less trading interest. The Exchange believes that adopting rules, which it anticipates will likewise be adopted by all option exchanges that are participants in the OLPP, would allow for continued competition between Exchange market participants trading similar products as their counterparts on other exchanges, while at the same time allowing the Exchange to continue to compete for order flow with other exchanges.

SR-PEARL-2020-06 Page 28 of 33

C. <u>Self-Regulatory Organization's Statement on Comments on the Proposed Rule</u> Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to 19(b)(3)(A) of the Act^{14} and Rule $19b-4(f)(6)^{15}$ thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.

Comments may be submitted by any of the following methods:

¹⁴ 15 U.S.C. 78s(b)(3)(A).

¹⁷ CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

MIAX PEARL, LLC Rules

Rule 404. Series of Option Contracts Open for Trading

(a) - (g) No Change.

Interpretations and Policies:

.01 - .07 No Change.

.08 Mini Option Contracts.

- (a) (c) No Change.
- (d) The minimum price variation for bids and offers for mini-options shall be the same as permitted for standard options on the same security. For example, if a security participates in the Penny Interval[Pilot] Program, mini-options on the same underlying security may be quoted in the same minimum increments, e.g., \$0.01 for all quotations in series that are quoted at less than \$3 per contract and \$0.05 for all quotations in series that are quoted at \$3 per contract or greater, \$0.01 for all SPY option series, and mini-options do not separately need to qualify for the Penny Interval[Pilot] Program.

.09 - .10 No Change.

Rule 510. Minimum Price Variations and Minimum Trading Increments

- (a) **Minimum Price Variations.** The Board may establish Minimum Price Variations ("MPV") for options traded on the Exchange. Until such time as the Board makes a change in the variations, the following principles shall apply:
 - (1) If the option contract is trading at less than \$3.00 per option, \$.05.
 - (2) If the option contract is trading at \$3.00 per option or higher, \$.10.
- (3) For options contracts traded pursuant to the Penny Interval Program as described in Rule 510(c):

SR-PEARL-2020-06 Page 32 of 33

- (i) one cent (\$0.01) for all options contracts in QQQ, SPY and IWM;
- (ii) one cent (\$0.01) for all other options contracts included in the Penny Interval Program that are trading at less than \$3; and
- (iii) five cents (\$0.05) for all other option contracts included in the Penny Interval Program that are trading at or above \$3.
- (b) No Change.
- (c) Requirements for Penny Interval Program. The Exchange will list option classes for the Penny Interval Program ("Penny Program") with minimum quoting requirements ("penny increments") of one cent (\$0.01) and five cents (\$0.05), as set forth in Rule 510(a)(3)(i)-(iii). The list of the option classes included in the Penny Program will be announced by the Exchange via Regulatory Circular and published by the Exchange on its website.
- (1) Initial Selection. On the first trading day of the third full calendar month after April 1, 2020, the Penny Program will apply only to the 363 most actively traded multiply listed option classes, based on OCC's National Cleared Volume in the six full calendar months ending in the month of approval, that (i) currently quote in penny increments, or (ii) overlie securities priced below \$200, or any index at an index level below \$200. Eligibility for inclusion in the Penny Program will be determined at the close of trading on the monthly Expiration Friday of the second full month following April 1, 2020.
- (2) Annual Review. Commencing in December 2020 and each December thereafter, OCC will rank all multiply listed option classes based on National Cleared Volume for the six full calendar months from June 1 through November 30 for determination of the most actively traded option classes.
- (i) Addition to the Penny Program. Based on the Annual Review, any option class not in the Penny Program that is among the 300 most actively traded multiply listed option classes overlying securities priced below \$200, or an index at an index level below \$200, will be added to the Penny Program on the first trading day of January.
- (ii) Removal from the Penny Program. Except as provided in (3), (4), (5) and (6) below, based on the Annual Review, any option class in the Penny Program that falls outside the 425 most actively traded multiply listed option classes will be removed from the Penny Program on the first trading day of April.
- (3) Newly listed Option Classes. The Exchange may add to the Penny Program a newly listed option class provided that (i) it is among the 300 most actively traded multiply listed option classes, as ranked by National Cleared Volume at OCC, in its first full calendar month of trading, and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200. Any option class added under this provision will be added on the first trading day of the month after it qualifies and will remain in the Penny Program for one full

SR-PEARL-2020-06 Page 33 of 33

calendar year, after which it will be subject to the Annual Review stated in sub-paragraph (2) of this Rule.

(4) Classes with Significant Growth in Activity. The Exchange may add any option class to the Penny Program, provided that (i) it is among the 75 most actively traded multiply listed option classes, as ranked by National Cleared Volume at OCC, in the past six full calendar months of trading and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200.

Any option class added under this provision will be added on the first trading day of the second full month after it qualifies and will remain in the Penny Program for the rest of the calendar year, after which it will be subject to the Annual Review stated in section (2) above.

- (5) Corporate Actions. If a corporate action involves one or more option classes in the Penny Program, all adjusted and unadjusted series of the option class will be included in the Penny Program. Any option class added to the Penny Program under this provision will remain in the Penny Program for at least one full calendar year, after which it will be subject to the Annual Review stated in sub-paragraph (2) of this Rule.
- (6) Delisted or Ineligible Option Classes. Any series in an option class participating in the Penny Program in which the underlying security has been delisted, or are identified by OCC as ineligible for opening customer transactions, will continue to quote pursuant to the terms of the Penny Program until all such options have expired.

Interpretations and Policies:

.01 Reserved.[Notwithstanding any other provision of this Rule 510, the Exchange will operate a pilot program, scheduled to expire on June 30, 2020, to permit options classes to be quoted and traded in increments as low as \$.01. The Exchange will specify which options trade in such pilot, and in what increments, in Listings Alerts distributed to Members and posted on the Exchange's website. The Exchange may replace any pilot classes that have been delisted with the next most actively traded multiply listed options classes that are not yet included in the pilot program, based on trading activity in the previous six months. The replacement classes may be added to the penny pilot on the second trading day in the first month of each quarter.]

.02 No Change.
