3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

The Exchange proposes to amend the exchange grouping of options exchanges within the routing fee table in Section 1)b) of the Fee Schedule, Fees for Customer Orders Routed to Another Options Exchange, to adjust the groupings of options exchanges.

Background

Currently, the Exchange assesses routing fees based upon (i) the origin type of the order; (ii) whether or not it is an order for standard option classes in the Penny Interval Program³ (“Penny classes”) or an order for standard option classes which are not in the Penny Interval Program (“Non-Penny classes”) (or other explicitly identified classes); and (iii) to which away market it is being routed. This assessment practice is identical to the routing fees assessment practice currently utilized by the Exchange’s affiliates, Miami International Securities Exchange, LLC (“MIAX”), MIAX Emerald, LLC (“MIAX Emerald”), and MIAX Sapphire, LLC (“MIAX Sapphire”). This is also similar to the methodology utilized by the Cboe BZX Exchange, Inc. (“Cboe BZX Options”), a competing options exchange, in assessing routing fees. Cboe BZX Options has exchange groupings in its fee schedule, similar to those of the Exchange, whereby several exchanges are grouped into the same category dependent upon the order’s origin type and whether it is a Penny or Non-Penny class.⁴

As a result of conducting a periodic review of the current transaction fees charged by away markets the Exchange has determined to amend the exchange groupings of options exchanges within the routing fee table to better reflect the associated costs and fees of routing customer orders to certain away markets for execution.

³ See Exchange Rule 510(c).

⁴ See Cboe U.S. Options Fee Schedules, BZX Options, effective November 20, 2025, “Fee Codes and Associated Fees,” at https://www.cboe.com/us/options/membership/fee_schedule/bzx/ (last visited November 23, 2025).

Proposal

The Exchange proposes to amend the table in Section 1)b) of the Exchange's Fee Schedule, Fees for Customer Orders Routed to Another Options Exchange, to update the exchange groupings of options exchanges within the routing fee table. Under this proposed change, the Exchange will not amend the fees associated with the exchange groupings. This proposal merely seeks to amend the exchange groupings, which change is reflected in the routing fee table below and described in detail herein.

Routed, Public Customer that is not a Priority Customer, Non-Penny Program, to: Cboe BZX Options, Nasdaq ISE, Nasdaq BX Options, MEMX	\$1.40

The Exchange proposes to remove “MEMX” from the “Routed, Public Customer that is not a Priority Customer, Non-Penny Program” \$1.25 fee tier and amend the “Routed, Public Customer that is not a Priority Customer, Non-Penny Program” \$1.40 fee tier to add “MEMX”. This change is being made as MEMX LLC (“MEMX”) recently amended its fee schedule and now assesses a transaction fee of \$1.21 per contract for orders in Non-Penny classes in Professional capacities which remove liquidity from the MEMX Options Book.⁵

The purpose of the proposal is to adjust the routing fee groups for orders routed to other exchanges to better reflect the associated costs for that routed execution in Penny and Non-Penny classes as determined by the fees and rebates at the executing exchange. In determining to amend its groupings, the Exchange took into account transaction fees assessed by the away market to which the Exchange routes orders, as well as the Exchange’s clearing costs, administrative, regulatory, and technical costs associated with routing orders to an away market. The Exchange uses unaffiliated routing brokers to route orders to the away markets; the costs associated with the use of these services are included in the routing fees specified in the Fee Schedule. This routing fee structure is not only similar to the Exchange’s affiliates, MIAX, MIAX Emerald, and MIAX Sapphire, but is also comparable to the structure in place on at least one other competing

⁵ See MEMX Options Fee Schedule (effective August 1, 2025), Transaction Fees, [available at https://info.memxtrading.com/us-options-trading-resources/us-options-fee-schedule/](https://info.memxtrading.com/us-options-trading-resources/us-options-fee-schedule/) (last visited November 23, 2025); see also Securities Exchange Act Release No. 100804 (August 22, 2024), 89 FR 68956 (August 28, 2024) (SR-MEMX-2024-32). The Exchange notes that the origin type of the order “Public Customer that is not a Priority Customer” in the MIAX Options Fee Schedule is substantively similar to the origin type of the order “Professional” in the MEMX Options Fee Schedule. The term “Public Customer” means a person that is not a broker or dealer in securities. The term “Priority Customer” means a person or entity that (i) is not a broker or dealer in securities, and (ii) does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s). See Exchange Rule 100. The term “Professional” means any person or entity that (A) is not a broker or dealer in securities; and (B) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s). See Rules of MEMX, Rule 16.1, [available at https://info.memxtrading.com/wp-content/uploads/2025/09/MEMX-Rulebook-9.16.25-Clean.pdf](https://info.memxtrading.com/wp-content/uploads/2025/09/MEMX-Rulebook-9.16.25-Clean.pdf) (last visited November 23, 2025).

options exchange, Cboe BZX Options.⁶ The Exchange’s routing fee structure approximates the Exchange’s costs associated with routing orders to away markets. The per-contract transaction fee amount associated with each grouping closely approximates the Exchange’s all-in cost (plus an additional, non-material amount)⁷ to execute that corresponding contract at that corresponding exchange.

The Exchange notes that in determining whether to adjust certain groupings of options exchanges in the routing fee table, the Exchange considered the transaction fees assessed by away markets, and determined to amend the grouping of exchanges that assess transaction fees for routed orders within a similar range. This same logic and structure apply to all of the groupings in the routing fee table. By utilizing the same structure that is utilized by the Exchange’s affiliates, MIAX, MIAX Emerald, and MIAX Sapphire, the Exchange’s Members⁸ will be assessed routing fees in a similar manner. The Exchange notes that its affiliates, MIAX, MIAX Emerald, and MIAX Sapphire, will file to make the same proposed routing fee changes contained herein.

Implementation

The proposed rule changes will become effective on December 1, 2025.

b. Statutory Basis

⁶ See supra note 4. The Cboe BZX Options fee schedule has exchange groupings, whereby several exchanges are grouped into the same category, dependent on the order’s origin type and whether it is a Penny or Non-Penny class.

⁷ This amount is to cover de minimis differences/changes to away market fees (i.e., minor increases or decreases) that would not necessitate a fee filing by the Exchange to re-categorize the away exchange into a different grouping. Routing fees are not intended to be a profit center for the Exchange and the Exchange’s goal regarding routing fees and expenses is to be as close as possible to net neutral.

⁸ The term “Member” means an individual or organization that is registered with the Exchange pursuant to Chapter II of these Rules for purposes of trading on the Exchange as an “Electronic Exchange Member” or “Market Maker.” Members are deemed “members” under the Exchange Act. See Exchange Rule 100.

The Exchange believes that its proposal to amend its Fee Schedule is consistent with Section 6(b) of the Act⁹ in general, and furthers the objectives of Section 6(b)(4) of the Act¹⁰ in particular, in that it is an equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities. The Exchange also believes the proposal furthers the objectives of Section 6(b)(5) of the Act¹¹ in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest and is not designed to permit unfair discrimination between customers, issuers, brokers and dealers.

The Exchange believes that the proposed changes to the exchange groupings of options exchanges within the routing fee table furthers the objectives of Section 6(b)(4) of the Act and is reasonable, equitable and not unfairly discriminatory because the proposed change will continue to apply in the same manner to all Members that are subject to routing fees. The Exchange believes the proposed changes to the routing fee table exchange groupings furthers the objectives of Section 6(b)(5) of the Act and is designed to promote just and equitable principles of trade and is not unfairly discriminatory because the proposed changes seek to recoup costs that are incurred by the Exchange when routing orders for Public Customers that are not Priority Customers to away markets on behalf of Members and does so in the same manner for all Members that are subject to routing fees. The costs to the Exchange to route orders to away markets for execution primarily includes transaction fees assessed by the away markets to which the Exchange routes orders, in addition to the Exchange's clearing costs, administrative,

¹¹ 15 U.S.C. 78f(b)(5).

regulatory and technical costs. The Exchange believes that the proposed re-categorization of certain exchange groupings would enable the Exchange to better reflect the costs and fees associated with routing orders to other exchanges for execution.

The Exchange places away markets in the fee tier grouping that best approximates the Exchange's costs and fees to route the orders in that segment to that away market. The per-contract transaction fee amount associated with each grouping approximates the Exchange's all-in cost (plus an additional, non-material amount)¹² to execute the corresponding contract at the corresponding exchange. The Exchange believes its tier structure represents the best approach to reflect the costs and fees associated with routing and executing orders on other exchanges. As noted above, this routing fee structure is comparable to the structure in place on at least one other competing options exchange, Cboe BZX Options.¹³

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange's proposed re-categorization of certain exchange groupings is intended to enable the Exchange to recover the costs it incurs to route orders to away markets. The costs to the Exchange to route orders to away markets for execution primarily includes the transaction fees assessed by the away markets to which the Exchange routes orders, in addition to the Exchange's clearing costs, administrative, regulatory and technical costs. The Exchange does not believe that this proposal imposes any unnecessary burden on competition because it seeks to better reflect the costs and fees incurred by the Exchange when routing orders to away markets on

No written comments were either solicited or received.

(Release No. 34- ; File No. SR-PEARL-2025-48)

The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The text of the proposed rule change is available on the Exchange’s website at <https://www.miaxglobal.com/markets/us-options/pearl-options/rule-filings> and at MIAX Pearl’s principal office.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified

² 17 CFR 240.19b-4.

in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the exchange grouping of options exchanges within the routing fee table in Section 1)b) of the Fee Schedule, Fees for Customer Orders Routed to Another Options Exchange, to adjust the groupings of options exchanges.

Background

Currently, the Exchange assesses routing fees based upon (i) the origin type of the order; (ii) whether or not it is an order for standard option classes in the Penny Interval Program³ (“Penny classes”) or an order for standard option classes which are not in the Penny Interval Program (“Non-Penny classes”) (or other explicitly identified classes); and (iii) to which away market it is being routed. This assessment practice is identical to the routing fees assessment practice currently utilized by the Exchange’s affiliates, Miami International Securities Exchange, LLC (“MIAX”), MIAX Emerald, LLC (“MIAX Emerald”), and MIAX Sapphire, LLC (“MIAX Sapphire”). This is also similar to the methodology utilized by the Cboe BZX Exchange, Inc. (“Cboe BZX Options”), a competing options exchange, in assessing routing fees. Cboe BZX Options has exchange groupings in its fee schedule, similar to those of the Exchange, whereby several exchanges are grouped into the same category dependent upon the order’s origin type and whether it is a Penny or Non-Penny class.⁴

³ See Exchange Rule 510(c).

⁴ See Cboe U.S. Options Fee Schedules, BZX Options, effective November 20, 2025, “Fee Codes and Associated Fees,” at https://www.cboe.com/us/options/membership/fee_schedule/bzx/ (last visited November 23, 2025).

As a result of conducting a periodic review of the current transaction fees charged by away markets the Exchange has determined to amend the exchange groupings of options exchanges within the routing fee table to better reflect the associated costs and fees of routing customer orders to certain away markets for execution.

Proposal

The Exchange proposes to amend the table in Section 1)b) of the Exchange's Fee Schedule, Fees for Customer Orders Routed to Another Options Exchange, to update the exchange groupings of options exchanges within the routing fee table. Under this proposed change, the Exchange will not amend the fees associated with the exchange groupings. This proposal merely seeks to amend the exchange groupings, which change is reflected in the routing fee table below and described in detail herein.

Routed, Public Customer that is not a Priority Customer, Non-Penny Program, to: Cboe BZX Options, Nasdaq ISE, Nasdaq BX Options, MEMX	\$1.40

The Exchange proposes to remove “MEMX” from the “Routed, Public Customer that is not a Priority Customer, Non-Penny Program” \$1.25 fee tier and amend the “Routed, Public Customer that is not a Priority Customer, Non-Penny Program” \$1.40 fee tier to add “MEMX”. This change is being made as MEMX LLC (“MEMX”) recently amended its fee schedule and now assesses a transaction fee of \$1.21 per contract for orders in Non-Penny classes in Professional capacities which remove liquidity from the MEMX Options Book.⁵

The purpose of the proposal is to adjust the routing fee groups for orders routed to other exchanges to better reflect the associated costs for that routed execution in Penny and Non-Penny classes as determined by the fees and rebates at the executing exchange. routing fee structure is not only similar to the Exchange's affiliates, MIAX, MIAX Emerald, and MIAX Sapphire, but is also comparable to the structure in place on at least one other competing options exchange, Cboe BZX Options.⁶ The Exchange's routing fee structure approximates the Exchange's costs associated with routing orders to away markets. The per-contract transaction fee amount associated with each grouping closely approximates the Exchange's all-in cost (plus an additional, non-material amount)⁷ to execute that corresponding contract at that corresponding exchange.

This same logic and structure apply to all of the groupings in the routing fee table. By utilizing the same structure that is utilized by the Exchange's affiliates, MIAX, MIAX Emerald, and MIAX Sapphire, the Exchange's Members⁸ will be assessed routing fees in a similar manner. The Exchange notes that its affiliates, MIAX, MIAX Emerald, and MIAX Sapphire, will file to make the same proposed routing fee changes contained herein.

Implementation

The proposed rule changes will become effective on December 1, 2025.

⁶ See supra note 4. The Cboe BZX Options fee schedule has exchange groupings, whereby several exchanges are grouped into the same category, dependent on the order's origin type and whether it is a Penny or Non-Penny class.

⁷ This amount is to cover de minimis differences/changes to away market fees (i.e., minor increases or decreases) that would not necessitate a fee filing by the Exchange to re-categorize the away exchange into a different grouping. Routing fees are not intended to be a profit center for the Exchange and the Exchange's goal regarding routing fees and expenses is to be as close as possible to net neutral.

⁸ The term "Member" means an individual or organization that is registered with the Exchange pursuant to Chapter II of these Rules for purposes of trading on the Exchange as an "Electronic Exchange Member" or "Market Maker." Members are deemed "members" under the Exchange Act. See Exchange Rule 100.

2. Statutory Basis

The Exchange believes that its proposal to amend its Fee Schedule is consistent with Section 6(b) of the Act⁹ in general, and furthers the objectives of Section 6(b)(4) of the Act¹⁰ in particular, in that it is an equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities. The Exchange also believes the proposal furthers the objectives of Section 6(b)(5) of the Act¹¹ in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest and is not designed to permit unfair discrimination between customers, issuers, brokers and dealers.

The Exchange believes that the proposed changes to the exchange groupings of options exchanges within the routing fee table furthers the objectives of Section 6(b)(4) of the Act and is reasonable, equitable and not unfairly discriminatory because the proposed change will continue to apply in the same manner to all Members that are subject to routing fees. The Exchange believes the proposed changes to the routing fee table exchange groupings furthers the objectives of Section 6(b)(5) of the Act and is designed to promote just and equitable principles of trade and is not unfairly discriminatory because the proposed changes seek to recoup costs that are incurred by the Exchange when routing orders for Public Customers that are not Priority Customers to away markets on behalf of Members and does so in the same manner for all Members that are subject to routing fees. The costs to the Exchange to route orders to away markets for execution primarily includes transaction fees assessed by the away markets to which

the Exchange routes orders, in addition to the Exchange's clearing costs, administrative, regulatory and technical costs. The Exchange believes that the proposed re-categorization of certain exchange groupings would enable the Exchange to better reflect the costs and fees associated with routing orders to other exchanges for execution.

The Exchange places away markets in the fee tier grouping that best approximates the Exchange's costs and fees to route the orders in that segment to that away market. The per-contract transaction fee amount associated with each grouping approximates the Exchange's all-in cost (plus an additional, non-material amount)¹² to execute the corresponding contract at the corresponding exchange. The Exchange believes its tier structure represents the best approach to reflect the costs and fees associated with routing and executing orders on other exchanges. As noted above, this routing fee structure is comparable to the structure in place on at least one other competing options exchange, Cboe BZX Options.¹³

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange's proposed re-categorization of certain exchange groupings is intended to enable the Exchange to recover the costs it incurs to route orders to away markets. The costs to the Exchange to route orders to away markets for execution primarily includes the transaction fees assessed by the away markets to which the Exchange routes orders, in addition to the Exchange's clearing costs, administrative, regulatory and technical costs. The Exchange does not believe that this proposal imposes any unnecessary burden on competition because it seeks to better reflect the costs and fees incurred by the Exchange when routing orders to away markets on

behalf of Members and notes that at least one other options exchange has a similar routing fee structure.¹⁴
