

**MIAX Options Reports June 2016 Trading Activity;
Remains #1 in Time at NBBO for Both All Option Classes
and Penny Pilot Option Classes for May 2016**

Princeton, NJ – July 6, 2016 – MIAX Options Exchange today announced that over 22.2 million contracts were executed on MIAX Options in June 2016, equating to an average daily volume (ADV) of over 1 million contracts. The June volume represents a 4.6% increase from the 20+ million contracts executed in May 2016 and a 4.6% increase from the 21+ million contracts executed in June 2015. MIAX Options’ year-to-date total as of June 2016 of over 125 million contracts represents a 7.1% increase over the 116+ million contracts achieved during the same time period in 2015. MIAX Options’ June equity options market share of 6.92% represents a 3.1% decrease from the 7.14% achieved in June 2015 and a 5.5% decrease from the 7.32% achieved in May 2016. For the entire U.S. equity options industry, June’s ADV was over 14.6 million contracts, or an 8.0% increase from June 2015’s ADV of over 13.5 million contracts.

Other achievements include:

- During May 2016, MIAX Options ranked #1 out of all U.S. equity options exchanges in percentage of time at the National Best Bid/Offer (NBBO) in aggregate across all option classes. This marked the tenth month in a row that MIAX Options achieved this distinction.
- During May 2016, MIAX Options ranked #1 out of all U.S. equity options exchanges in percentage of time at the NBBO in aggregate across all Penny Pilot option classes. This marked the ninth month in a row that MIAX Options achieved this distinction. Statistics for both all option classes and Penny Pilot option classes were provided by the TABB Group.¹

¹ *The Options Liquidity Matrix is a monthly analysis of options market activity published by TABB Group and Hanweck Associates. The report includes options trading volumes and statistics on execution metrics for each U.S. listed options exchange and the industry using proprietary statistics and methodologies from Hanweck Associates and data from the Options Clearing Corporation. All statistics are derived from direct OPRA data feeds and include all trade activity reported by OPRA for each day. Quote statistics include trading activity during normal trading hours.*

Percentage of Time at the National Best Bid/Offer: Sum of time the exchange is both best bid and best offer (across only symbols quoted by the exchange) divided by the sum of time those symbols have a best bid/offer during the trading day.

About MIAX Options and MIH

MIAX Options is a fully electronic options trading exchange. MIAX Options has assembled a team with deep rooted experience in developing, operating and trading on options exchanges. Its trading platform has been developed in-house and designed from the ground up for the unique functional and performance demands of derivatives trading. MIAX Options now lists and trades options on over 2,400 multi-listed classes. MIAX Options' unparalleled system throughput is approximately 38 million quotes per second. The average latency for a single quote on MIAX Options is approximately 16.21 microseconds for a full round trip. At the 99th percentile, the latency on MIAX Options is approximately 23.90 microseconds. At the 99.9th percentile, the latency on MIAX Options is approximately 53.71 microseconds. The executive offices and technology development center as well as the National Operations Center for the MIAX Options are located in Princeton, New Jersey.

MIAX Options, Miami International Technologies, LLC (MIAX Technologies), MIAX Global, LLC (MIAX Global) and MIAX PEARL, LLC (MIAX PEARL) are wholly-owned subsidiaries of Miami International Holdings, Inc. (MIH). MIAX Technologies is MIH's technology subsidiary for the sale and/or license of MIAX trading technology. MIAX Global focuses on merger, acquisition and joint venture activities of MIH. MIAX Global also provides technology and other services outside of North America, with its initial concentration being on Europe and Latin America. MIAX PEARL will be MIH's second fully electronic options trading exchange and will leverage MIAX's industry leading technology and infrastructure to employ a price-time allocation model. MIAX PEARL is expected to launch in late 2016, pending approval from the SEC.
