

MIAX Announces Bloomberg Equity Index Futures Now Available on NinjaTrader

Tini B500 Index Futures and Tini B100 Index Futures available for NinjaTrader customers

PRINCETON, N.J. AND MIAMI — October 15, 2026 — Miami International Holdings, Inc. (MIAX®) (NYSE: MIAX), a technology-driven leader in building and operating regulated financial markets across multiple asset classes, today announced Tini® Bloomberg® 500 (B500) Index Futures and Tini Bloomberg 100 (B100) Index Futures are now available to eligible NinjaTrader Group customers. NinjaTrader Group is a global leader in retail futures trading serving approximately 4.5 million users.

Tini B500 Index Futures and Tini B100 Index Futures — designed for retail traders and traded exclusively on MIAX Futures® — offer customers an alternative way to gain U.S. equity exposure with smaller notional sizes, no exchange fees for retail traders and free market data. The futures are available on the NinjaTrader platform under the ticker symbols TBX (B500) and TBQ (B100).

"Retail investors are one of the fastest-growing segments in U.S. futures, and we're thrilled to collaborate with NinjaTrader to bring our Tini B500 futures and Tini B100 futures to their premier trading platform and clients," said Thomas P. Gallagher, Chairman and Chief Executive Officer of MIAX. "By combining innovative product design with no exchange fees, we provide retail investors with a compelling new way to manage exposure to large-cap U.S. companies."

"NinjaTrader is where active traders go to access the futures markets. We remain focused on expanding that edge our traders seek with new products and tools that strengthen their strategies and mitigate market exposure," said Martin Franchi, Chief Executive Officer of NinjaTrader Group. "Tini Bloomberg 500 (B500) Index Futures and Tini Bloomberg 100 (B100) Index Futures offer a trusted brand with smaller notional sizes as another option to gain U.S. equity exposure for the active retail trader. We look forward to working with MIAX as we continue to innovate the products we offer for our trading community."

MIAX Futures' Bloomberg equity index products launched earlier this year on the exchange's proprietary MIAX Futures Onyx trading platform. The futures products clear at The Options Clearing Corporation (OCC) and provide transparent, rules-based benchmarks for the large market cap segment of the U.S. market. MIAX also expects to launch cash options on both the B500 and B100 Indexes on MIAX Options®. The cash options will also clear at OCC, providing enhanced margin and capital efficiencies across the Bloomberg equity index futures and options product complex.

Additional retail brokers are expected to offer Tini B500 Index Futures and Tini B100 Index Futures beginning in the fourth quarter of 2026.
